GLOSSARY

Sustainability Report: the document drawn up once a year and approved by the Board of Directors of the Company that adopts a multi-stakeholder approach, through the joint analysis of actions taken in relation to the principal holders of interests with which the company interacts. It is based on the Sustainability Reporting Guidelines of the Global Reporting Initiative (GRI), the standard setter in sustainability reporting. The 2016 Report follows the comprehensive option of the G4 version, and is based on the principles (completeness, materiality, responsiveness) of the AA1000 AccountAbility Principles Standard (APS 2008). The Report is audited by audit firm PricewaterhouseCoopers

Borsa Code/Corporate Governance Code: the Corporate Governance Code of listed companies approved in July 2015 by the Committee for Corporate Governance and promoted by Borsa Italiana S.p.A., ABI, Ania, Assogestioni, Assonime and Confindustria, available to the public on <http://www.borsaitaliana.it/comitato-corporate-governance/codice/2015clean.pdf>.

Issuer or Company: Telecom Italia S.p.A. also referred to as TIM S.p.A.

Corporate Governance Principles: the document setting out the rules on corporate governance established by the Board of Directors of the Issuer, to supplement and complement the provisions of the Borsa Code to which the Company adheres

Consob Issuers' Regulation: the Regulations issued by Consob with resolution no. 11971 of 1999 (as subsequently amended) on the subject of issuers.

Consob Markets' Regulation: the Regulations issued by Consob with resolution no. 16191 of 2007 (as subsequently amended) on the subject of markets.

Consob Related Party Regulations: the Regulations issued by Consob with resolution no. 17221 of 12 March 2010 (as subsequently amended) on the subject of transactions with related parties.

Report: the report on corporate governance and share ownership drawn up by the Issuer pursuant to art. 123-bis CLF.

Remuneration Report: the remuneration report drawn up pursuant to art. 123-ter of the CLF and art. 84-quater of the Consob Issuers' Regulation, available pursuant to the law at the company headquarters, on the website of the Issuer at www.telecomitalia.com About Us section Remuneration Channel, and through the 1info authorised storage platform www.1info.it.

Consolidated Law on Finance/CLF: Legislative Decree no. 58 of 24 February 1998 (as subsequently amended)

1. INTRODUCTION

The Telecom Italia corporate governance system is organised according to the traditional model, as set out in article 2380 and subsequent articles of the Italian Civil Code.

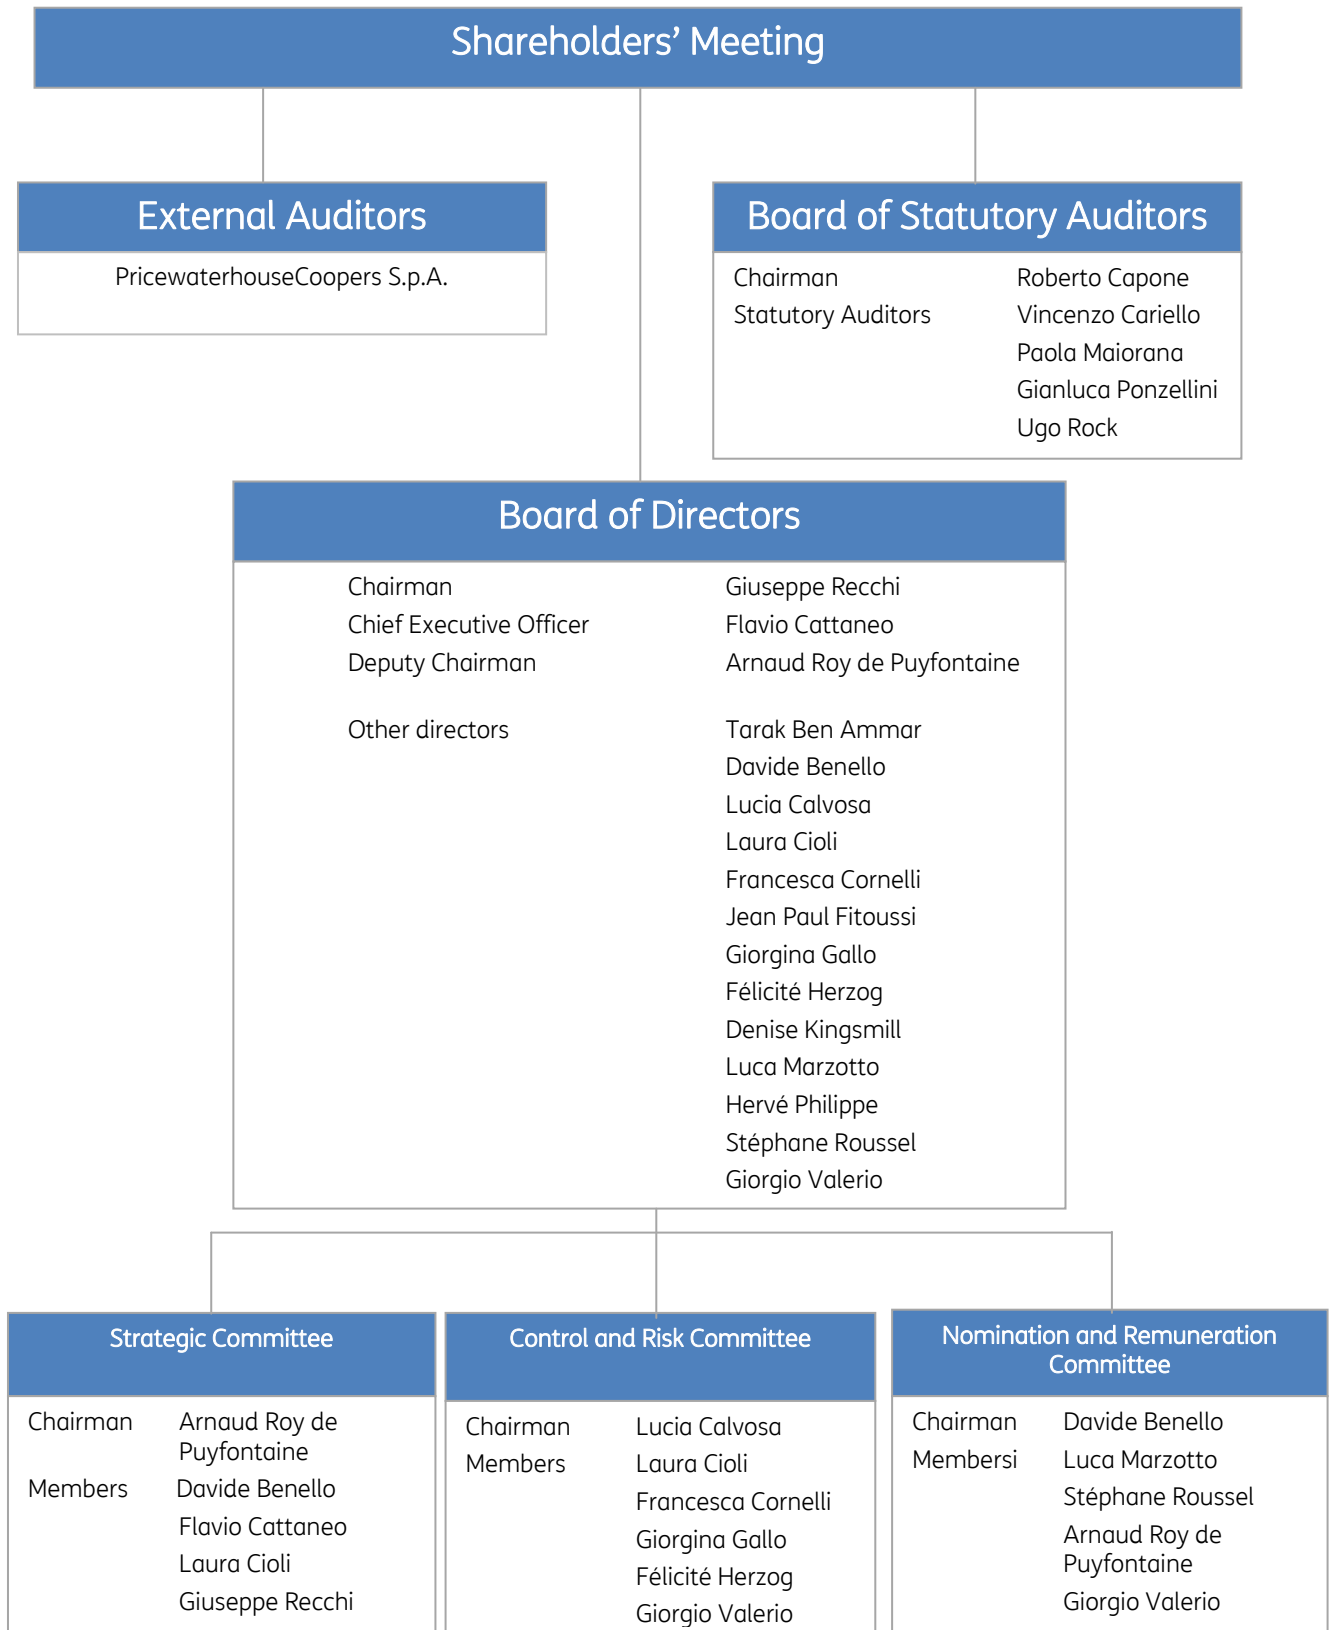

The organisation of the Company is characterised by the presence of:

- a board of directors charged with making provision for the management of the company;
- a board of statutory auditors called on to (i) monitor compliance with the law and the company by-laws, and respect for the principles of correct administration in the execution of the company's activities, (ii) to monitor the adequacy of the organisational structure and administrative-accounting system of the Company, and of the reliability of the latter to correctly represent operations, (iii) to monitor the financial reporting process, the independent audit of the annual accounts and consolidated accounts, and of the independence of the external auditor, (iv) to monitor the overall adequacy of the risk management and control system, (v) to check the arrangements for the concrete implementation of the corporate governance rules set out in the Corporate Governance Code, and, finally, (iv) to monitor the adequacy of the instructions imparted by the Company to its subsidiaries, extraordinary transactions of the company, and other important events, including transactions with related parties and affiliated subjects;
- the shareholders' meeting, competent to resolve, *inter alia* – in ordinary and extraordinary session – on (i) the appointment and removal of the members of the board of directors and the board of statutory auditors, and on their remuneration and responsibilities, (ii) the approval of the financial statements and the allocation of the profits, (iii) the purchase and sale of treasury shares, (iv) the share ownership plans, (v) amendments to the Company by-laws (other than those that represent mere adaptation to regulatory provisions), (vi) the issue of convertible bonds.

Non-alignment or partial alignment with specific provisions of the Corporate Governance Code, updated to July 2015 to which Telecom Italia adheres, is justified in the section of the Report which deals with the governance practice otherwise applied by the Company, as per the comparison table below.

The information contained in this Report refers to the 2016 financial year, and, with regard to specific issues, is updated to the date of the meeting of the Board of Directors that approved it (23 March 2017); see the Remuneration Report for details on pay issues; for social responsibilities, see the Sustainability Report.

GOVERNANCE SYSTEM

2. COMPARATIVE TABLE

Article 1 Role of the Board of Directors	Comply or explain
Principles	
1.P.1. The issuer is guided by a board of directors that meets regularly and is organised and operates in such a way as to guarantee the effective execution of its functions.	(see Chapter 5. of the Report on Corporate Governance and Share Ownership - RCG)
1.P.2. The directors act and resolve with full knowledge of the facts and autonomously, pursuing the priority objective of creating value for the shareholders with a medium-long term perspective.	(see Chapters 5.3 and 5.4. of the RCG)
Application criteria	
1.C.1. The board of directors:	
a) examines and approves the strategic, operational and financial plans of both the issuer and the group it heads, monitoring their implementation periodically; it defines the issuer's corporate governance system and the group structure;	(see Chapter 5.3 of the RCG)
b) defines the nature and level of risk compatible with the strategic objectives of the issuer, including in its assessments all the risks that can assume importance from a sustainability perspective in the medium-long period of issuer activity;	(see Chapter 5.3 of the RCG)
c) evaluate the adequacy of the organizational, administrative and accounting structure of the issuer as well as of its strategically significant subsidiaries in particular with regard to the internal control system and risk management;	(see Chapters 5.3 and 12. - RCG)
d) specifies the frequency, in any case no less than once every three months, with which the delegated bodies must report to the Board on the activities performed in the exercise of the powers delegated to them;	(see Chapter 5.4 of the RCG)
e) evaluate the general performance of the company, paying particular attention to the information received from the delegated bodies and periodically comparing the results achieved with those planned;	(see Chapters 5.3 and 5.4. of the RCG)
f) resolves upon transactions to be carried out by the issuer or its subsidiaries when such transactions have a significant impact on the issuer's strategies, profitability, assets and liabilities or financial position; to this end, the Board shall establish general criteria for identifying the material transactions;	(see Chapter 5.3 of the RCG)
g) perform at least annually an evaluation of the performance of the Board of Directors and its Committees, as well as their size and composition, taking into account the professional competence, experience (including managerial experience) and gender of its members, as well as the number of years for which they have served as director. Where the board of directors avails itself of external consultants for self-assessment, the report on corporate governance provides information on the identity of such consultants and on other services, if any, supplied by such consultants to the issuer or to companies having a control relationship with the issuer;	(see Chapters 5.3 and Table 2. of the RCG)
h) taking into account the outcome of the evaluation mentioned under the previous item g), reports to shareholders its view on the managerial and professional profiles deemed appropriate for the composition of the Board of Directors, prior to the appointment of the new board;	(see Chapter 5.3 of the RCG)
i) provides information in the Report on Corporate Governance on: (1) its composition, indicating for each member their title (executive, non-executive, independent), the role that they perform within the Board of Directors (for example, chairman or chief executive officer, as defined in article 2), their main professional characteristics as well as the length of time since their first appointment; (2) the procedures for applying this article 1 and, in particular, the number and average duration of meetings of the board and of the executive committee, if there is one, held during the fiscal year, as well as the corresponding attendance of each director; (3) the methods used to carry out the self-assessment procedure referred to in item g) above;	(see Chapters 5.3 and 5.4. and Table 2 of the RCG)
j) in order to ensure the correct handling of corporate information, adopts, upon proposal of the chief executive officer or the chairman of the Board of Directors, procedures for the internal handling and disclosure to third parties of documents and information concerning the issuer, having special regard to price sensitive information.	(see Chapters 5.4 and 6 of the RCG)
1.C.2. The directors accept office when they consider that they are able to dedicate the necessary time to the diligent execution of their duties, also	(see Chapters 5.2 and Note to Table 2 of the RCG)

<p>taking account of the commitment connected to their own work and professional activities, the number of directorships or appointments as statutory auditor they hold in other companies listed in regulated markets (including foreign markets) in finance companies, banks, insurance companies or companies of significant size. Based on the information received from the directors, the board collects annually, and makes known in the report on corporate governance, the directorships or appointments as statutory auditor held by the directors in aforementioned companies.</p>	
<p>1.C.3. The board expresses its view of the maximum number of directorships or appointments as statutory auditor in the companies stated in the previous paragraph that can be considered compatible with the effective execution of the role of director of the issuer, taking account of the participation of directors in the internal board committees constituted. For this purpose, it identifies general criteria differentiated according to the commitment required for each role (executive director, non-executive director or independent director), also in relation to the nature and dimensions of the companies in which they hold office as well as their membership of the issuer's group, if applicable.</p>	(see Chapter 5.2 of the RCG)
<p>1.C.4. If the shareholders' meeting, in order to meet organisational requirements, should authorise derogations of the non-competition clause set out in art. 2390 of the Italian Civil Code, the board of directors considers the merits of each issue of this kind and reports any critical aspects to the first useful meeting of the shareholders. For this purpose, each director informs the board, upon acceptance of their appointment, of any activities undertaken in competition with the issuer and, subsequently, of all relevant changes.</p>	(see Chapter 5.3 of the RCG)
<p>1.C.5. The chairman of the board of directors uses his/her best endeavours for the documentation relating to the topics on the agenda to be brought to the knowledge of the directors and statutory auditors sufficiently in advance of the date of the board meeting. In its report on corporate governance, the board provides information on the timeliness and completeness of the pre-board reporting, also providing indications on the notice generally considered sufficient for the despatch of the documentation and indicating if this period of time has been respected normally.</p>	(see Chapter 5.3 of the RCG)
<p>1.C.6. The chairman of the board of directors, also at the request of one or more directors, may ask the chief executive officers that senior managers of the issuers, and those of the group companies that answer to it, responsible for the competent business functions according to the topic, are in attendance at board meetings to provide suitable in depth information on the items on the agenda. The report on corporate governance provides information on their actual attendance.</p>	(see Chapter 5.3 of the RCG)
<p>Article 2 – Composition of the Board of Directors</p>	
<p style="text-align: center;">Principles</p>	
<p>2.P.1. The board of directors is composed of executive and non-executive directors with adequate skills and professional capabilities.</p>	(see Chapters 5.2 and 5.3 of the RCG)
<p>2.P.2. The non-executive directors bring their specific skills to board discussions, contributing to informed decision-making and paying particular attention to those areas in which there may be conflicts of interest.</p>	(see Chapter 5.3 of the RCG)
<p>2.P.3. The number, skills, authority and available time of the non-executive directors shall be such as to guarantee that their opinion can have a significant weight in board decision-making.</p>	(see Chapters 5.2 and 5.3 of the RCG)
<p>2.P.4. It is advisable to avoid concentrating corporate offices in a single person.</p>	(see Chapters 5.4 and 5.5 of the RCG)
<p>2.P.5. Where the board of directors has conferred management powers on the chairman, the board of directors provides an adequate explanation of the reasons for this organisational choice in the report on corporate governance.</p>	(see Chapters 5.4 and 5.5 of the RCG)
<p style="text-align: center;">Application criteria</p>	
<p>2.C.1. The following are qualified as executive directors of the issuer:</p> <ul style="list-style-type: none"> – the chief executive officers of the issuer or of a company controlled by the issuer with strategic importance, including their chairmen, when individual management powers are granted to them, or when they play a specific role in the development of business strategies; – the directors who hold executive positions in the issuer or in a company controlled by the issuer with strategic importance, or in the parent company when the office also regards the issuer; – the directors who hold executive positions in the issuer or in a company controlled by the issuer with strategic importance, or in the parent company when the office also regards the issuer; – the directors who are members of the executive committee of the issuer, when a chief executive officer has not been identified, or when 	(see Chapters 5.4 and 5.5 of the RCG)

<p>membership of the executive committee, taking the frequency of meetings and the object of its resolutions into account, means the de facto systematic involvement of its members in the current management of the issuer.</p> <p>The attribution of vicarious powers, or only for cases of urgency, to directors without management powers does not in itself mean that they are executive directors, unless such powers are in fact used with notable frequency.</p>	
<p>2.C.2. The directors are obliged to know the tasks and responsibilities inherent to their office.</p> <p>The chair of the board of directors ensures that directors and statutory auditors can participate, after their nomination and during their mandate, in the most opportune ways, in initiatives intended to provide them with adequate knowledge of the business sector in which the issuer operates, of the dynamics of the company and their evolution, and of the principles of correct risk management as well as the legal and self-regulatory framework of reference.</p> <p>In the report on corporate governance the issuer reports on the type and organisation of the initiatives that have taken place during the financial year of reference.</p>	(see Chapter 5.2 of the RCG)
<p>2.C.3. The board of directors designates an independent director as lead independent director in the following cases: (i) if the chairman of the board of directors is the principal person responsible for running the business (chief executive officer); (ii) if the office of chairman is filled by the person who controls the issuer.</p> <p>The board of directors of issuers who are part of the FTSE-MIB designates a lead independent director if this is requested by a majority of the independent directors, unless the board makes a different and reasoned assessment, to be published in the report on corporate governance.</p>	(although neither of the eventualities set out in the application criteria apply, the BoD - as designated by the independent Directors - has appointed an LID - see Chapter 5.7, RCG)
<p>2.C.4. The Lead Independent Director:</p> <p>a) represents a point of reference and coordination for the issues and contributions of the non-executive directors and, in particular, of those that are independent pursuant to article 3 below;</p> <p>b) collaborates with the chairman of the board of directors to guarantee that the directors receive complete and timely flows of information.</p>	(see Chapter 5.7 of the RCG)
<p>2.C.5. The chief executive officer of an issuer (A) may not assume the office of director of another issuer (B) that is not a member of the same group, of which an issuer (A) director is chief executive officer.</p>	(currently the CEO of Telecom Italia does not hold directorships in other companies in which a director of Telecom Italia is CEO; see Table 2 of the RCG)
Article 3 – Independent Directors	
Principles	
<p>3.P.1. An adequate number of non-executive directors are independent, in the sense that they do not have relations such as to currently condition their independence of judgement, nor have they recently had such relations, even indirectly, with the issuer or subjects linked to the issuer.</p>	(see Chapter 5.6 of the RCG)
<p>3.P.2. The independence of the directors is assessed by the board of directors after their appointment and subsequently at yearly intervals. The outcome of the board's assessments is communicated to the market.</p>	(see Chapter 5.6 of the RCG)
Application criteria	
<p>3.C.1. The board of directors assesses the independence of its non-executive members having regard more to the substance than to the form, and bearing in mind the fact that a director does not normally appear independent in the following eventualities, which are not to be considered mandatory:</p> <p>a) if they control the issuer directly, indirectly or also through subsidiaries, trustee companies or nominees, or are able to exercise a significant influence over said issuer, or are party to shareholders' agreements through which one or more subjects can exercise significant influence or control over the issuer;</p> <p>b) if they occupy, or have occupied in the three preceding financial years, a prominent position in the issuer, in a company controlled by the issuer with strategic importance or in a company subject to joint control with the issuer, or in a company or body which, also together with others through a shareholders' agreement, controls the issuer or is able to exert significant influence over it;</p> <p>c) if, directly or indirectly (for example, through subsidiaries or companies in which they occupy a prominent position, or as a partner in a professional firm or consultancy company) they have, or have had in the preceding year, a significant commercial, financial or</p>	(see Chapter 5.6 of the RCG)

<p>professional relationship:</p> <ul style="list-style-type: none"> – with the issuer, a company controlled by the issuer, or any person holding a prominent position in such a company; – with a subject that, also with others through a shareholders' agreement, controls the issuer, or –in the case of a company or body – with the persons in a prominent position in such a company or body; <p>or is, or has been in the preceding three years, an employee of one of the aforementioned subjects;</p> <p>d) if they receive, or have received in the preceding three years, from the issuer or from a company controlled by or that controls the issuer, a significant additional remuneration (by comparison with the "fixed" fee of a non-executive director of the issuer and the fee paid for participation in the committees recommended in this Code) also in the form of participation in incentive plans linked to company performance, including share-based plans;</p> <p>e) if they have not been a director of the issuer for more than nine of the last twelve years;</p> <p>f) if they have held office as an executive director of another company in which an executive director of the issuer serves as a director;</p> <p>g) if they are a shareholder or director of a company or entity belonging to the network of firms charged with the external audit of the issuer;</p> <p>h) if they have close family ties with a person who is in one of the situations set out in the previous points.</p>	
<p>3.C.2. For the above purposes the following are to be considered "persons in a prominent position" in a company or body : the chairman of the body, the chairman of the board of directors, the executive directors or key managers with strategic responsibilities in the company or body considered.</p>	<p>(see Chapter 5.6 of the RCG)</p>
<p>3.C.3. The number and skills of the independent directors are consistent with the size of the board and the activity undertaken by the issuer; they are also such as to permit the constitution of internal committees of the board, according to the indications contained in the Code.</p> <p>In issuers that are members of the FTSE-MIB index, at least one third of the board of directors is composed of independent directors. If this quota should not correspond to a whole number, this should be rounded down.</p> <p>In any event there shall be no fewer than two independent directors.</p>	<p>(see Chapter 5.6 of the RCG)</p>
<p>3.C.4. After the appointment of a director who qualifies as an independent, and subsequently, when circumstances relevant to their independence arise and in any event at least once a year, the board of directors assesses the relations that might be or appear to be such as to compromise the independence of judgement of said director, based on the information provided by the person concerned or available to the issuer.</p> <p>The board of directors makes the outcome of its assessments known, after the appointment, by means of a press release to the market and, subsequently, in its report on corporate governance.</p> <p>In these documents the board of directors:</p> <ul style="list-style-type: none"> – will report if assessment parameters different to those indicated in the Code, also with reference to individual directors, have been adopted, and if so, for what reason – will illustrate the quantitative and/or qualitative criteria that might be used to evaluate the significance of the relationships assessed. 	<p>(see Chapter 5.6 of the RCG)</p>
<p>3.C.5. The board of statutory auditors, as part of the duties assigned to it by law, checks that the criteria and procedures of ascertainment adopted by the board to assess the independence of its members have been correctly applied. The outcome of these controls is made known to the market in the report on corporate governance or the statutory auditors' report to the shareholders' meeting.</p>	<p>(see Chapter 5.6 of the RCG)</p>
<p>3.C.6. The independent directors meet at least once a year in the absence of the other directors.</p>	<p>(see Chapter 5.7 of the RCG)</p>
<p>Article 4 – Institution and functioning of the internal committees of the board of directors</p>	
<p>Principles</p>	
<p>4.P.1. The board of directors institutes from among its members one or more committees with consulting and proposing functions as indicated in the following articles.</p>	<p>(see Chapter 7.5 of the RCG)</p>
<p>Application criteria</p>	
<p>4.C.1. The institution and functioning of the committees specified in the Code meets the following criteria:</p>	<p>(see Chapters 8 and 10 of the RCG)</p>

<p>a) the committees are composed of no fewer than three members. However, in issuers whose board of directors is composed of no more than eight members, the committees may be composed of just two directors, provided they are independent. The works of the committees is coordinated by a chairman;</p> <p>b) the tasks of the single committees are established with the resolution constituting them, and they may be supplemented or modified with subsequent resolutions of the board of directors;</p> <p>c) the functions that the Code attributes to different committees may be distributed differently or assigned to a lower number of committees than specified, provided that the rules for the composition indicated case by case by the Code are respected, and that achievement of the objectives below is guaranteed;</p> <p>d) the meetings of each committee are minuted, and the chairman of the committee reports on them at the first possible board meeting;</p> <p>e) in carrying out their functions, the committees have the right to access the company departments and information necessary for the execution of their tasks, and to avail themselves of external consultants, within the terms established by the board of directors. The issuer makes available to the committees adequate financial resources for the fulfilment of their tasks, within the limit of the budget approved by the board;</p> <p>f) subjects who are not members may participate in the meetings of each committee, including other members of the board or the structure of the issuer, at the invitation of said committee, with reference to single items on the agenda;</p> <p>g) the issuer provides adequate information, in its report on corporate governance, about the institution and composition of the committees, the content of the office conferred on it and, based on the indications provided by each committee, on the activity actually carried out over the financial year, on the number and mean duration of the meetings held and on the percentage attendance of each member.</p>	
<p>4.C.2. The institution of one or more committees may be avoided, reserving their functions to the full board, under the coordination of the chairman, and at the following conditions: (i) the independent directors represent at least half the board of directors, rounding down to the nearest whole number if the board consists of an odd number of people; (ii) that adequate space is dedicated within board meetings to the execution of the functions that the Code attributes to said committees, of which an account is to be provided in the report on corporate governance; (iii) regarding the control and risk committee only, the issuer is not controlled by another listed company, or subject to direction and coordination.</p> <p>The board of directors illustrates analytically, in the report on corporate governance, the reasons underlying the choice to not institute one or more committees; in particular, it adequately motivates the choice to not institute the control and risk committee in relation to the degree of complexity of the issuer and the sector in which it operates. The board also proceeds to periodically reconsider the choice made.</p>	<p>Although the Board of Directors of Telecom Italia is composed in majority of directors who qualify as independent, both the Control and Risk Committee and the Nomination and Remuneration Committee have been instituted.</p>
<p>Article 5 – Nomination of Directors</p>	
<p>Principles</p>	
<p>5.P.1. The board of directors constitutes an internal nomination committee composed, in majority, of independent directors.</p>	<p>(see Chapter 8 of the RCG)</p>
<p>Application criteria</p>	
<p>5.C.1. The nomination committee is vested with the following functions:</p>	
<p>a) to express opinions to the Board of Directors regarding its size and composition and express recommendations with regard to the professional skills necessary within the Board as well as with regard to the topics indicated by articles 1.C.3 and 1.C.4;</p> <p>b) to submit to the Board of Directors candidates for the office of director, in case of co-optation, should the replacement of independent directors be necessary.</p>	<p>(see Chapter 8 of the RCG)</p>
<p>5.C.2. The board of directors assesses whether or not to adopt a plan for the succession of executive directors. If it should have adopted such a plan, the issuer will report this in its report on corporate governance. The investigation for the preparation of the plan is carried out by the nomination committee or such other internal board committee with responsibility to do so.</p>	<p>(see Chapter 5.1 of the RCG)</p>
<p>Article 6 – Remuneration of Directors</p>	
<p>Principles</p>	
<p>6.P.1. The remuneration of the directors and key managers with strategic</p>	<p>(see Chapter 9 of the RCG)</p>

responsibilities is established in an amount sufficient to attract, retain and motivate people with the required professional qualities to manage the issuer with success.	
6.P.2. The remuneration of the executive directors and key managers with strategic responsibilities is defined in such a way as to align their interests with the pursuit of the priority objective of creating value for the shareholders with a medium-long term perspective. For the directors who are recipients of management powers or who perform, even on a de facto basis only, functions related to the management of the business as well as for key managers with strategic responsibilities, a significant part of the remuneration is linked to the achievement of specific performance objectives, including those of a non-economic nature, indicated beforehand and determined in coherence with the guidelines contained in the policy specified in principle 6.P.4 below. The remuneration of the non-executive directors is commensurate with the commitment required of each, also taking account of any membership of one or more committees.	(see Chapter 9 of the RCG)
6.P.3. The board of directors constitutes an internal remuneration committee composed of independent directors. Alternatively, the committee may be composed of non-executive directors, with a majority of independent directors; in this case, the chairman of the committee is selected from among the independent directors. At least one member of the committee shall possess an adequate knowledge and experience of financial matters or pay policies, to be assessed by the board of directors at the time of appointment.	(see Chapter 8 of the RCG)
6.P.4. The board of directors, at the proposal of the remuneration committee, defines a policy for the remuneration of the directors and key managers with strategic responsibilities.	(see Chapter 9 of the RCG)
6.P.5. The issuer, on the occasion of the cessation of office and/or termination of relations with an executive director or general manager, makes known, at the outcome of the internal processes that lead to the attribution or acknowledgement of indemnities and/or other benefits, detailed information in this regard, by means of a press release disseminated to the market.	(see Chapter 9 of the RCG)
Application criteria	
6.C.1. The remuneration policy for executive directors or directors vested with special offices defines the guidelines with reference to the issues and in coherence with the criteria indicated below a) the fixed component and the variable component are adequately balanced according to the strategic objectives and risk management policy of the issuer, also taking account of the sector of activity in which it operates and the characteristics of the business activity actually carried out; b) maximum limits are set for the variable components; c) the fixed component is sufficient to remunerate the service of the director in the eventuality that the variable component should not be paid due to non-achievement of the performance objectives indicated by the board of directors; d) the performance objectives - namely the economic results and any other specific objectives to which payment of the variable components is linked (including the objectives defined for the share-based remuneration plans) - are predetermined, measurable, and linked to the creation of value for the shareholders in a medium-long term perspective; e) payment of a major portion of the variable component of the remuneration is deferred by an adequate period of time after the moment of its accrual; the measure of said portion and the duration of the deferment shall be coherent with the characteristics of the business activity undertaken and with the related risk profiles;	(see Chapter 9 of the RCG)
f) contractual agreements are provided that enable the company to require the repayment, whole or in part, of variable components of the remuneration paid (or to retain sums that are deferred), determined based on data that are subsequently found to be manifestly incorrect;	(see Chapter 9 of the RCG)
g) any compensation that might be envisaged for termination of the directorship shall be defined in such a way that its total amount does not exceed a certain sum or certain number of years of remuneration. Said compensation is not paid if the termination of the directorship is due to the achievement of results that are objectively inadequate.	(see Chapter 9 of the RCG)
6.C.2. In preparing share-based remuneration plans, the board of directors ensures that: a) the shares, options and every other right assigned to the directors to acquire shares or be remunerated based on the trend in the share price	(see Chapter 9 of the RCG)

<p>have an average vesting period of at least three years;</p> <p>b) the vesting referred to in point a) is subject to predetermined and measurable performance objectives;</p> <p>c) the directors maintain a quota of the shares allocated or acquired through the exercise of the rights referred in point a) until the end of their mandate.</p>	
<p>6.C.3. Criteria 6.C.1 and 6.C.2 apply, insofar as they are compatible, also to the determination - by the bodies delegated to do this - of the remuneration of key managers with strategic responsibilities.</p> <p>The incentive mechanisms for the head of the internal audit department and the executive responsible for preparing the corporate accounting documents reflect the tasks assigned to them.</p>	<p>(see Chapter 9 of the RCG)</p>
<p>6.C.4. The remuneration of the non-executive directors is not - except for a non-significant part - linked to the economic results achieved by the issuer. The non-executive directors are not the beneficiaries of share-based remuneration plans, unless decided, with reasoning, by the shareholders' meeting.</p>	<p>(see Chapter 9 of the RCG)</p>
<p>6.C.5. The Remuneration Committee:</p> <ul style="list-style-type: none"> - periodically evaluate the adequacy, overall consistency and actual application of the policy for the remuneration of directors and key management personnel, also on the basis of the information provided by the managing directors; it shall formulate proposals to the Board of Directors in that regard - submit proposals or issue opinions to the Board of Directors for the remuneration of executive directors and other directors who cover particular offices as well as for the identification of performance objectives related to the variable component of that remuneration; monitor the implementation of decisions adopted by the Board of Directors and verify, in particular, the actual achievement of performance objectives. 	<p>(see Chapters 8 - 9 of the RCG)</p>
<p>6.C.6. No director takes part in the meetings of the remuneration committee where proposals for the board of directors are formulated relating to his/her own remuneration.</p>	<p>(see Chapters 8 - 9 of the RCG and art. 2.4 of the Regulations of the Nomination and Remuneration Committee)</p>
<p>6.C.7. If it should intend to avail itself of the services of a consultant in order to obtain information on market practices on pay policies, the remuneration committee checks in advance that it is not in situations that might compromise the independence of its judgement.</p>	<p>(see Chapters 8 - 9 of the RCG)</p>
<p>6.C.8. The communication to the market specified in principle 6.P.5. comprises:</p> <ol style="list-style-type: none"> a) adequate information on the compensation and/or other benefits, including their amount, and the timing of their payment - distinguishing the part paid immediately from any part subject to deferment mechanisms, and also distinguishing the components attributed by virtue of the office of director from those relating to any employment relationship, and any repayment clauses, with particular reference to: <ul style="list-style-type: none"> - end of office or termination of employment compensation, specifying the circumstances in which a director is entitled to it (for example, due to expiry of the term of office, revocation of office or settlement agreement); - maintenance of the rights related to any incentive plan based on money or financial instruments. - benefits (monetary and non-monetary) after the director ceases to hold office; - non-competition obligations, describing their principal content; - any other compensation attributed for any reason and in any form; b) information on the conformity or otherwise of the compensation and/or other benefits with the indications contained in the remuneration policy, in case of even partial non-respect of the indications in said policy, information on the resolution procedures followed in application of the Consob regulations on transactions with related parties; c) indications on the application or non-application of any mechanisms that place limitations or impose corrective measures on the payment of compensation in the case in which the termination of the relationship is due to objectively inadequate achievement of results, as well as on any formulation of request for the repayment of compensation already paid; d) information on the fact that the replacement of the executive director or general manager who has ceased to hold office is regulated by a succession plan adopted by the company, if this is the case, and, in any event, indications regarding the procedures that have been or will be 	<p>(see Chapter 9 of the RCG)</p>

followed in replacing the director or senior manager.	
Article 7 – Internal control and risk management system	
Principles	
7.P.1. Every issuer equips itself with an internal control and risk management system composed of the set of rules, procedures and organisational structures to identify, measure, manage and monitor the principal risks. This system is integrated into the more general organisational and corporate governance structures adopted by the issuer and gives due consideration to the existing national and international reference models and best practices.	(see Chapter 12 of the RCG)
7.P.2. An effective internal control and risk management system contributes to conduct of the business that is coherent with the company objectives defined by the board of directors, promoting knowledgeable decision-taking. It contributes to ensure that the equity of the company, the efficiency and effectiveness of its business processes and the reliability of the information supplied to the corporate bodies and the market are safeguarded, and that the laws and regulations, and the bylaws and internal procedures, are respected.	(see Chapter 12 of the RCG)
7.P.3. The internal control and risk management system also involves, each for those matters for which it is competent:	
a) the board of directors, which plays a directing role and assesses the adequacy of the system, and identifies from its members:	(see Chapter 12 of the RCG)
i. one or more directors, appointed to create and maintain an effective internal control and risk management system (in article 7 below, the "director in charge of the internal control and risk management system"), and	(see Chapter 12.1 of the RCG)
ii. a control and risk committee, with the characteristics indicated in principle 7.P.4., with the task of supporting, with adequate investigatory activity, the assessments and decisions of the board of directors regarding the internal control and risk management system, and the activities relating to the approval of the periodic financial reports;	(see Chapter 10 of the RCG)
b) the head of the internal audit department, appointed to check that the internal control and risk management system is functioning and adequate;	(see Chapter 12.2 of the RCG)
c) the other company roles and functions with specific tasks regarding internal control and risk management, articulated according to the size, complexity and risk profile of the business;	(see Chapter 12.6 of the RCG)
d) the board of statutory auditors, also as internal control and audit committee, which monitors the effectiveness of the internal control and risk management system. The issuer ensures arrangements for coordination between the subjects listed above in order to maximise the efficiency of the internal control and risk management system and to reduce duplication of activity.	(see Chapter 12.6 of the RCG)
7.P.4. The control and risk committee is composed of independent directors. Alternatively, the committee may be composed of non-executive directors, with a majority of independent directors; in this case, the chairman of the committee is selected from among the independent directors. If the issuer is controlled by another listed company or is subject to the direction and coordination of another company, the committee is in any event composed exclusively of independent directors. At least one member of the committee shall possess adequate experience of accounts and financial matters or risk management, to be assessed by the board of directors at the time of appointment.	(see Chapter 10 of the RCG)
Application criteria	
7.C.1. The board of directors, after having received the opinion of the control and risk committee:	
a) defines the broad policies of the internal control and risk management system in such a way that the principal risks pertinent to the issuer and the companies it controls are correctly identified, and adequately measured, managed and monitored, also determining the degree of compatibility of such risks with a business management that is coherent with the strategic objectives identified;	
b) assesses, at yearly intervals at least, the adequacy of the internal control and risk management system in relation to the characteristics of the business and the assumed risk profile, as well as its effectiveness;	(see Chapter 12 of the RCG)
c) approves, at yearly intervals at least, the plan of work drawn up by the head of the internal audit department, having obtained the opinion of the board of statutory auditors and the director in charge of the internal control and risk management system;	

<p>d) describes in the report on corporate governance, the principal characteristics of the internal control and risk management system and how the different subjects involved in it are coordinated, expressing its assessment of the adequacy of said system;</p> <p>e) assesses, after having obtained the opinion of the board of statutory auditors, the results set out by the external auditor in its letter of suggestions, if any, and in its report on the fundamental issues that emerged during the external audit.</p>	
<p>The board of directors, at the proposal of the director in charge of the internal control and risk management system, and having obtained the favourable opinion of the control and risk committee, and obtained the opinion of the board of statutory auditors:</p> <ul style="list-style-type: none"> – appoints and terminates the appointment of the head of the internal audit department; – ensures that said person is equipped with adequate resources to fulfil their responsibilities; – defines their remuneration, in line with company policy. 	<p>(the current head of Internal Audit was appointed – with the involvement of all the components specified in the Corporate Governance Code – according to the process summarised in Chapter 12.2 of the RCG)</p>
<p>7.C.2. The control and risk committee, in assisting the board of directors:</p> <ul style="list-style-type: none"> a. together with the executive responsible for preparing the company's accounting documents, after having obtained the opinion of the external auditor and the Board of statutory auditors, assesses whether or not the accounting principles have been correctly applied, and, in the case of groups, their consistency for the purposes of preparing the consolidated financial statements; b. expresses opinions on specific aspects relating to the identification of the principal business risks; c. reviews the periodic reports that assess the internal control and risk management system, as well as those reports of the internal audit department that are particularly significant; d. monitors the independence, adequacy, efficiency and effectiveness of the internal audit department; e. may ask that the internal audit department review specific operational areas, giving immediate notice to the chairman of the Board of Statutory Auditors; f. reports to the Board of Directors, at least every six months, on the occasion of the approval of the annual and half-year financial report, on the activity it has carried out, as well as on the adequacy of the internal control and risk management system; g. supports, with adequate investigatory activities, the Board of Directors' assessments and decisions on the management of risks arising from prejudicial facts which the Board of Directors may have become aware of. 	<p>(see Chapter 10 of the RCG)</p>
<p>7.C.3. The chairman of the board of statutory auditors, or another statutory auditor designated by the chairman, attends the meetings of the control and risk committee, although the other statutory auditors may also attend.</p>	<p>(see Chapter 10 of the RCG)</p>
<p>7.C.4. The director in charge of the internal control and risk management system:</p> <ul style="list-style-type: none"> a) ensures that the principal business risks are identified, taking account of the characteristics of the activities carried out by the issuer and the companies it controls, and periodically submits them to review by the board of directors; b) implements the guidelines defined by the board of directors, overseeing the design, creation and operation of the internal control and risk management system and constantly checks its adequacy and efficacy; c) focuses on the adaptation of said system to the dynamics of the operating conditions and legislative and regulatory panorama; d) may request that the internal audit department review specific operational areas, and check that the internal procedures and rules are being respected in the execution of business transactions giving immediate notice to the chairman of the board of directors, the chairman of the control and risk committee and the chairman of the board of statutory auditors; e) promptly refers to the control and risk committee (or to the board of directors) any issues or critical points that have emerged from the execution of its activity or which have in some way come to its attention, in order that the committee (or the board) may take the appropriate initiatives. 	<p>(see Chapter 12.1 of the RCG)</p>
<p>7.C.5. The head of the internal audit department</p>	<p>(see Chapter 12.2 of the RCG)</p>

<p>a) verifies, both on a continuous basis and in relation to specific needs and in conformity with international standards, the adequacy and effective functioning of the internal control and risk management system, through an audit plan approved by the board of directors, based on a process of structured analysis and prioritisation of the principal risks;</p> <p>b) is not responsible for any operational area and reports directly to the board of directors;</p> <p>c) has direct access to all information useful for the performance of his or her duties;</p> <p>d) drafts periodic reports containing adequate information on their own activity, and on the methods used to manage risks, as well as on compliance with the plans defined to mitigate them. The periodic reports contain an assessment of the adequacy of the internal control and risk management system;</p> <p>e) prepares timely reports on particularly significant events;</p> <p>f) submits the reports indicated under items d) and e) above to the chairs of the Board of Statutory Auditors and Control and Risk Committee and to the Chairman of the Board of Directors, as well as to the director in charge of the internal control and risk management system;</p> <p>g) tests the reliability of the information systems, including the accounting system, as part of the audit plan.</p>	
<p>7.C.6. The internal audit function, as a whole or by operational segment, may be assigned to a subject external to the issuer, provided it adequately meets the requirements of professionalism, independence and organisation. The adoption of such organisational choices, adequately reasoned, is communicated to the shareholders and to the market in the report on corporate governance.</p>	<p>N.A. (responsibility for the Internal Audit department is assigned to a Company employee)</p>
<p>Article 8 – Statutory Auditors</p>	
<p>Principles</p>	
<p>8.P.1. The statutory auditors act with autonomy and independence, also from the shareholders that elected them.</p>	<p>(see Chapters 14 - 15 and Table 3 of the RCG)</p>
<p>8.P.2. The issuer puts in place suitable measures to guarantee the effective execution of the tasks assigned to the board of statutory auditors.</p>	<p>(see Chapters 14 - 15 and Table 3 of the RCG)</p>
<p>Application criteria</p>	
<p>8.C.1. The statutory auditors are chosen from among people who can be qualified as independent also based on the criteria set out in this Code for directors. The board of statutory auditors checks that its members meet these criteria after nomination and at yearly intervals, informing the board of directors of the outcome of these checks. The board makes these results known, after the appointment, by means of a press release to the market, and subsequently in its report on corporate governance in the same way as prescribed for the directors.</p>	<p>(see Chapters 14 – 15 and Table 3 of the RCG)</p>
<p>8.C.2. The statutory auditors should accept office when they believe they can dedicate the necessary time to the diligent execution of their tasks.</p>	<p>(see Chapters 14 – 15 and Table 3 of the RCG)</p>
<p>8.C.3. The remuneration of statutory auditors is proportionate to the commitment required from each and to the importance of their roles, as well as to the size and business sector of the company.</p>	<p>(see Chapter 15 of the RCG)</p>
<p>8.C.4. A statutory auditor who, on their own account or on behalf of third parties, has an interest in a particular transaction of the issuer, promptly and thoroughly informs the other statutory auditors and the chairman of the board of directors of the nature, terms, origin and extent of their interest.</p>	<p>(see Chapters 14 – 15 and Table 3 of the RCG)</p>
<p>8.C.5. As part of their activities, the statutory auditors may ask the internal audit function to carry out audits of specific operational areas or company transactions.</p>	<p>(see Chapter 12 of the RCG)</p>
<p>8.C.6. The board of statutory auditors and the control and risk committee promptly exchange information relevant for the execution of their respective tasks.</p>	<p>(see Chapter 10 of the RCG)</p>
<p>Article 9 – Relations with stakeholders</p>	
<p>Principles</p>	
<p>9.P.1. The board of directors promotes initiatives to favour the broadest possible shareholder participation in meetings, and to facilitate the exercise of shareholders' rights.</p>	<p>(see Chapter 17 of the RCG)</p>
<p>9.P.2. The board of directors uses its best endeavours to establish a continuous dialogue with the shareholders based on understanding of one another's roles.</p>	<p>(see Chapter 17 of the RCG)</p>
<p>Application criteria</p>	
<p>9.C.1. The board of directors ensures that an executive in charge of managing</p>	<p>(see Chapter 16 of the RCG)</p>

relations with the shareholders is identified, and periodically assesses the advisability of proceeding to constitute a business structure charged with this function.	
9.C.2. All the directors attend meetings of the shareholders, as a rule. Shareholders' meetings are also an occasion to communicate information on the issuer to the shareholders, in compliance with the regulations on inside information. In particular, the board of directors reports to the shareholders on the activities undertaken and planned, and uses its best endeavours to ensure that the shareholders have adequate information on the elements they need to take the decisions that are the responsibility of the shareholders' meeting with full knowledge of the facts.	(see Chapter 17 of the RCG)
9.C.3. The board of directors proposes to the shareholders' meeting, for its approval, regulations that indicate the procedures to be followed to enable the orderly and functional running of the shareholders' meetings, while also guaranteeing the right of each shareholder to speak on the topics for debate.	(see Chapter 17 of the RCG)
9.C.4. In the case of significant changes to the market capitalisation of the issuer's shares, or to the composition of its share ownership, the board of directors assesses the advisability of proposing to the shareholders' meeting amendments to the by-laws regarding the percentages set out for exercising shares and the prerogatives intended to protect minority holdings.	(see Chapter 17 of the RCG)

3. INFORMATION ON SHARE OWNERSHIP

(pursuant to Article 123-bis, subsection 1, CLF)
as at 31 December 2016

a) Share capital structure

The subscribed and paid-up share capital is shown in Table 1 - Share capital structure at 31 December 2016.

The Company's ordinary and savings shares, without indication of the par value, are listed, as well as on the Italian stock exchange (Borsa Italiana), and on the New York Stock Exchange in the form of American Depositary Shares, each corresponding to 10 ordinary or savings shares, represented by *American Depositary Receipts* issued by JPMorgan Chase Bank.

The characteristics of the savings shares are governed by Article 6 of the By-laws (available on the website www.telecomitalia.com, About Us section - *Governance System/Company By-laws* channel).

In relation to the share-based incentive plan called the "2014-2016 Stock Option Plan", and the increase in capital to service it, see the note "Remuneration plans in the form of shareholdings in the Company capital" in the separate financial statements of the Company as at 31 December 2016 and the corresponding disclosure document that may be consulted on the website www.telecomitalia.com, About Us section, *Remuneration* channel.

b) Restrictions on transfer of securities

There are no limitations under the Company By-laws on the control of the shares issued by the Company.

Telecom Italia is however subject to the special powers in the energy, transport and communication sectors pursuant to legislative decree no. 21/2012 converted with amendments by law 56/2012. For a description of the prerogatives that government authorities are entitled to exercise, see letter d) below ("Shares that confer special rights").

The 2014-2016 Stock Option Plan does not envisage lock-up mechanisms.

c) Significant shareholdings

Significant holdings in the ordinary capital of Telecom Italia at 31 December 2016 and subsequent developments, are shown in Table 1 – Information on share ownership.

d) Securities that confer special rights

The By-laws do not envisage shares with multiple or enhanced voting rights, and the Company does not issue securities that confer special control rights.

However, the law on strategic activities in the communications sector (contained in the decrees issued by the Prime Minister, identifying "*the networks and systems, assets and relations of strategic relevance for the communications sector*", pursuant to art. 2 of legislative decree no. 21/2012) prescribes:

- a power to impose conditions and possibly to oppose the purchase of controlling shareholdings by non-EU subjects. The purchase is in any case permitted solely on condition of reciprocity. Until the end of the period of time within which conditions may be imposed, or the power to oppose an initiative exercised, any rights other than ownership rights connected to shares whose sale entails the transfer of control, are suspended. The same rights are suspended in case of non-compliance with or breach of the conditions imposed on the purchaser, for the whole of the period in which the non-compliance or breach persists. Any resolutions adopted with the determining vote of said shares, as well as the resolutions or acts adopted that breach or do not comply with the conditions imposed, shall be null and void;
- a power of veto (including in the form of imposition of prescriptions or conditions) on any resolution, act or transaction which has the effect of modifying the ownership, control or availability of strategic assets or changing their destination, including resolutions of merger, demerger, transfer of registered office abroad, transfer of the company or business units which contain the strategic assets or their assignment by way of guarantee. Resolutions or acts adopted in breach of said prescriptions shall be null and void. The Government may also order

the Company and any other party to restore the antecedent situation.

e) Employee shareholdings: mechanism for exercising voting rights

No specific methods or limits on the ways in which employee shareholders can exercise their voting rights are prescribed, irrespective of the provenance of the shares held (including from specific employee share plans).

f) Restrictions on voting rights

There are no restrictions on voting rights of shares constituting the ordinary share capital of Telecom Italia. Savings shares are not granted the right to vote at ordinary shareholders' meetings. For a description of the restrictions to voting rights deriving from the exercise of the special powers reserved to the Government, see paragraph d) above.

g) Shareholders' Agreements

At present there are no shareholders' agreements relevant for Telecom Italia pursuant to article 122 of the CLF.

h) Change of control clauses and statutory provisions on Tender Offers

In a series of agreements to which Telecom Italia and/or the companies it controls are party, the duty to announce the change of control is specified, and sometimes the phenomenon of change of control means an amendment or extinction of the relationship. The situations not subject to contractual confidentiality constraints in which the change of control is significant are reported below.

Financial relationships

Regarding the financing relationships set out below:

- Revolving Credit Facility signed with a syndicate of banks on 24 May 2012 for 4 billion euros, expiring on 24 May 2019.
- *Revolving Credit Facility signed with a syndicate of banks on 25 March 2013 for 3 billion euros, expiring on 26 March 2020.*
- *Facility Agreement signed with Cassa Depositi e Prestiti on 10 April 2015 for 100 million euros, expiring on 10 April 2019.*
- *Facility Agreement signed with Mediobanca – Banca di Credito Finanziario S.p.A. on 10 November 2014 for 200 million euros, expiring on 11 November 2019 and a further agreement signed on 6 July 2015 for 150 million euros, expiring on 3 July 2020.*
- *Facility Agreement signed with ICBC- Industrial & Commercial Bank of China on 13 July 2015 for 120 million euros, expiring on 06 July 2020.*
- *Facility Agreement signed with INTESA SANPAOLO on 7 August 2015 for 200 million euros, expiring on 5 August 2021.*

Telecom Italia must promptly communicate any change of control to the bank or, where specified, to the agent, within 5 working days, and the bank or agent will, on behalf of the financing banks, negotiate in good faith how the relationship will proceed within a period of 30 days, at the end of which a bank with which agreement has not been reached may ask for reimbursement for the quota of financing it provided, and/or the cancellation of the quota relating to its commitment. No change of control arises should the control be acquired (i) by shareholders who, at the date of signature of the agreement, directly or indirectly, held more than 13% of the voting rights at the shareholder's meeting, or (ii) by the parties to the Telco shareholder's Agreement (Generali Group, Mediobanca S.p.A., Intesa Sanpaolo S.p.A. and Telefónica S.A.), or (iii) by a pool of subjects belonging to these two categories. Breach of the obligation to communicate the change of control that has occurred, where not remedied, would imply that an Event of Default had occurred. With respect to these loan contracts, Telecom Italia has also assumed the obligation of not implementing mergers, demergers or transfers of business operations outside the Group. If such an Event of Default should occur, it can imply early redemption of the drawn sums and/or cancellation of commitments not yet used, if requested by the bank, or by the agent on behalf of the lender banks.

For

- the “New Loan” Loan Agreement between Alfiere S.p.a. - a company 50% controlled by Telecom Italia (and CDP Immobiliare S.r.l. for the remaining 50%) - signed on 18 December 2015, for a 78,000,000 euro loan (of which 69,000,000 Capex Line due 18/12/2023 and 9,000,000 VAT Line due 18/12/2020) granted by a pool of banks (BNP Paribas, GE Capital Interbanca S.p.A., Intesa Sanpaolo S.p.A., Unicredit S.p.A. as lender banks and Banca Nazionale del Lavoro S.p.A., as agent bank) and
- the agreement modifying the Existing Loan Agreement, renegotiated by Alfiere S.p.a. with the aforementioned lenders, also signed on 18 December 2015 (originally signed in 2005 for the sum of 194 million euros and repayment 18/12/2023),

in case of a change of control not authorised by all the lenders, Alfiere will have to repay the total amount of the loan (of approximately 130 million euros) early. Alfiere must communicate any change in its share ownership from the ownership that existed at the date of signature of the loan within 15 working days of the date it became aware of it. Any sales, including separately, by Telecom Italia and/or CDP Immobiliare S.r.l. shall be permitted if to third party subjects of analogous standing, subject to the issue of formal consent by all the lenders, which they may not deny unreasonably. Non-compliance with the obligation to notify any change in share ownership will imply the application of the termination clause in the “New Loan??” Loan Agreement and the Existing Loan Agreement.

In the Loan Agreement between TIM Celular S.A. and KfW and KfW bank GmbH, with repayment 15 April 2019, for the sum of 182 million Reais, there is a change of control clause that can also be triggered in case of change of control events that affect Telecom Italia. If a change of control should occur, the bank is entitled to request early repayment of the loan, after the expiry of a period within which any consultations that might be requested of the bank are to be held. In the loan agreement entered into by TIM Celular S.A. and TIM Nordeste S.A. with Banco Nacional de Desenvolvimento Economico e Social (BNDES) on 19 November 2008 and repayment July 2022, for the sum of 5.097 billion Reais, *TIM Participações S.A.*, as the parent company intervening in the contract, has assumed the obligation of submitting for the prior approval of BNDES, *inter alia*, any sale, acquisition, incorporation, merger or demerger of its assets, or any other act that involves or might involve a change to the current configuration, or the transfer of shareholder control of the beneficiaries (TIM Celular S.A. and *Intelig Participações S.A.*) or any change in its status as controlling shareholder. Furthermore, in some loan agreements signed by Tim Celular SA, for a total amount equivalent to approximately 290 million euros and repayment in 2019 and 2020, there is a change of control clause that may also come into force for change of control events that involve Telecom Italia. If a change of control should occur, the bank is entitled to request early repayment of the loan, after the expiry of a period within which any consultations that might be requested of the bank are to be held.

The following agreements are noted, which, although not having a real change of control clause, provide for a commitment by Telecom Italia to not implement corporate transactions outside the group:

- Facility Agreement signed with UBI Banca Regionale Europea S.p.A. on 27 July 2015 for 200 million euros, expiring on 28 July 2019;
- Facility Agreement signed with BANK OF CHINA on 28/01/2010 for 25,000,000 euros, expiring on 31 July 2017;
- Facility Agreement signed with AB SVENSK EXPORTKREDIT on 26/03/2010 for 61,185,481 euros, expiring on 16 April 2018;
- Facility Agreement signed with THE BANK OF TOKYO - MITSUBISHI on 07/10/2010 for 145,598,195 euros, expiring on 18 March 2019;
- Facility Agreement signed with THE BANK OF TOKYO - MITSUBISHI on 14/10/2011 for 107,827,531 euros, expiring on 11 February 2020.
- Facility Agreement signed with NORDEA on 28/11/2011 for 59,339,525 euros, expiring on 23 April 2020.
- Facility Agreement signed with BANCO SANTANDER on 26/04/2012 for a total of 79,654,910 euros split into two tranches of 29,654,910 euros and 50,000,000 euros and expiring on 11 May 2020 and 27 May 2020, respectively.
- Facility Agreement signed with CHINA DEVELOPMENT Bank Corp on 23/05/2012 for 140,000,000 euros, expiring on 23 May 2022.
- Facility Agreement signed with NORDEA on 30/10/2012 for 60,360,263 euros, expiring on 19 February 2021.
- Facility Agreement signed with THE BANK OF TOKYO - MITSUBISHI on 24/01/2013 for 136,810,201 euros, expiring on 13 April 2021.
- Facility Agreement signed with NORDEA on 25/10/2013 for 99,863,345 euros, expiring on 02 March 2022.
- Facility Agreement signed with THE BANK OF TOKYO - MITSUBISHI on 28/02/2014 for 151,579,675 euros, expiring on 20 January 2022.
- Facility Agreement signed with UNICREDIT BANK AUSTRIA AG on 28/09/2015 for a total of 174 million euros split into two tranches of 113,500,000 euros and 60.500.000 euros and expiring on 31 March 2023 and 30 June 2024, respectively.

- Facility Agreement signed with AB SVENSK EXPORTKREDIT on 1/10/2015 for a total of 193,162,936 euros split into two tranches of 102,344,783 euros and 90,818,153 euros and expiring on 31 March 2023 and 30 June 2024, respectively.
- Facility Agreement signed with BANK OF CHINA on 23/03/2016 for 50,000,000 euros, expiring on 23 March 2023;
- Facility Agreement signed with Unicredit S.p.A. on 24/06/2016 for 100,000,000 euros, expiring on 24 June 2021.

The following information is provided regarding the bonds in existence:

- The terms and conditions for the fixed rate equity-linked bonds, convertible into Telecom Italia S.p.A. ordinary shares, issued by Telecom Italia, establish that if there is a change of control, the Issuer must notify the Trustee immediately, and the bondholders will have the right to request conversion of their bonds into ordinary shares of the Company within the following 60 days. No acquisition of control arises should the control be acquired (i) by shareholders who, at the date of signature of the trust deed, held more than 13% of the voting rights at the shareholder's meeting, directly or indirectly, or (ii) by the parties to the Telco shareholder's agreement (Generali Group, Mediobanca S.p.A., Intesa Sanpaolo S.p.A. and Telefónica S.A.), or (iii) by a pool of subjects belonging to these two categories.
- The regulations of loans issued within the framework of the EMTN Programme and loans denominated in U.S. dollars typically state that, in the case of merger or transfer of all or substantially all of the assets of the issuing company or surety, the incorporating or transferee company must assume all the obligations of the incorporated or transferred company. Failure to comply with this obligation, if not rectified, constitutes an event of default.

Finally, in the relations with the European Investment Bank (EIB).

- in the first set of contracts for an amount of 0.9 billion euros, there is an obligation to promptly notify the EIB of any amendments to the By-laws or any redistribution of capital among the shareholders that may lead to a change of control. Failure to provide this notification entails the termination of the contract. In addition, if a shareholder who at the date of signature of the contract does not hold at least 2% of the share capital comes to hold more than 50% of the voting rights at the ordinary Shareholders' Meeting, or in any event, of the share capital, and, according to the reasonable opinion of the EIB, this could prejudice or compromise the execution of the funding project, Telecom Italia must immediately inform the Bank which will have the right to consult Telecom Italia and request information. If the Bank should deem, in its reasonable opinion, that the corporate changes may have negative consequences on the financial capacity of Telecom Italia, it is entitled to ask that guarantees be constituted, or the contract be amended, or an alternative solution be found. If Telecom Italia does not comply with the EIB's request, the latter has the right to terminate the contract;
- in the contracts entered into in 2011, 2013, 2014 and 2015, for a total amount of 1.65 billion euros, the obligation was specified for Telecom Italia to notify the EIB immediately of any substantial alteration regarding the Company Bylaws or its share ownership. Failure to provide this notification, after a notice to comply, entails the termination of the contract. Under the terms of the contracts under examination, a change of control is produced if a party or group of parties acquire control of Telecom Italia, or of the entity that directly or indirectly controls it. In the contracts entered into with EIB in 2011, 2013 and 2014 a change of control is not brought about if control is acquired directly or indirectly (i) by any shareholder who at the date of the contract holds directly or indirectly at least 13% of the voting rights in the ordinary shareholders' meeting or (ii) by the investors Telefonica S.A., Assicurazioni Generali S.p.A., Intesa San Paolo S.p.A. or Mediobanca S.p.A. or subsidiaries thereof. In the contract signed in 2015, there is no change of control if control is acquired directly or indirectly by: (i) any shareholder of Telecom Italia which at the date of the contract should hold, directly or indirectly, at least 13% of the rights to vote in an ordinary shareholders' meeting, or (ii) any shareholder which at the date of the contract should hold, directly or indirectly, the majority of the rights to vote in the ordinary shareholders' meeting as specified in point (i) above. If a change of control should occur, in all the contracts in question the EIB is entitled to request early repayment of the loan after the expiry of a period within which any consultations that might be requested by the EIB are to be held.

Authorisation certificates

In relation to the regulations on special powers for activities of strategic relevance in the communications sector, see paragraph d) above.

The duty to communicate the change of control, provided for by Italian law on licences, is also contained in the general authorisation certificates granted to Telecom Italia for operating and providing the network and for offering electronic communications services as well as in the general concession/authorisation certificates granted to subsidiary Persidera for the network operator business.

A similar obligation is regulated by local legislation and by the provisions set out in the concession/licence certificates

for telecommunication services held by the foreign subsidiaries of the Group, and, in some Countries, based on the applicable laws, the obligation for specific approval by the competent Authorities is required.

The By-laws do not contain derogations of the regulations on the passivity rule, nor the application of the so-called neutralisation rules in the case of public offerings to purchase or exchange securities issued by the Company.

i) Powers to increase share capital and authorisations of share buy-backs

After the exercising of the power to increase the share capital to service the “2014-2016 Stock Options Plan”, on 23 March 2017, all the powers to issue shares granted to the Board of Directors of the Company by the Shareholders’ Meeting have been spent.

For a description of the status as at 31 December 2016 of the aforementioned stock option plan, please refer to the note in the separate financial statements “Remuneration plans in the form of shareholdings in the Company capital”.

Telecom Italia owned 37,672,014 treasury shares; Telecom Italia Finance owned 126,082,374 Telecom Italia ordinary shares. No authorisations to purchase treasury shares are currently in force.

j) Direction and coordination

Telecom Italia is not subject to direction and coordination pursuant to Article 2497 and subsequent articles of the Italian Civil Code.

4. COMPLIANCE

Telecom Italia is a limited company with registered office in Italy, subject to Italian and European Community law. Moreover,

- in relation to the listing of its shares on Borsa Italiana and of some of its bonds on the Vienna Stock Exchange, it is required to comply with corresponding regulations;
- solely in its capacity as a foreign issuer, registered at the U.S. Securities and Exchange Commission and listed on the New York Stock Exchange, it is subject to U.S. law.

As stated in the introduction, Telecom Italia adheres to the Corporate Governance Code of Borsa Italiana updated to July 2015, and adapts its own system of corporate governance to Italian and international best practices.

At 31 December 2016 the subsidiaries of Telecom Italia included the Tim Brasil group companies, the holding company of which Tim Participações S.A. is a company registered and listed in Brazil, and also registered with the US Securities and Exchange Commission and listed on the New York Stock Exchange; The corporate governance structure of Telecom Italia is not affected by the legal provisions governing Tim Participações.

5. BOARD OF DIRECTORS

5.1 Appointment and replacement

In accordance with Article 9 of the Bylaws, the Board of Directors (composed of a minimum of 7 to a maximum of 19 Directors) is appointed on the basis of slates submitted by shareholders holding a total of at least 0.5% of the ordinary share capital or lower proportion as required by Consob.

The requirements for the composition of the slates are (i) the presence of independent candidates pursuant to law (art. 148 of the CLF) and/or to the Corporate Governance Code, so that at least half of the persons who will be selected from each slate are in possession of these requirements and(ii) if there are three or more candidates, the presence of candidates of both genders, so that the candidates of the less represented gender are at least one third of the total (rounding any fractions up to the highest whole number). Two thirds of the directors to be elected shall be chosen from the slate which has obtained the greatest number of votes (the “Majority Slate”), in the order in which they are listed on

said slate, rounding any fractions down. The remaining Directors shall be chosen from the other slates proportionally (the "quotients" method), without prejudice to the legal requirements. At least half of the directors chosen from each slate (with rounding up) must fulfil the requirements of independence specified in art. 148 of the CLF and/or the Corporate Governance Code. If necessary, the last names elected from a slate that do not fulfil these requirements will be replaced, in order, by the first of those not elected from the same slate who fulfil said requirements; in the absence of a sufficient number of independent candidates in a slate to be able to make the replacements, the Shareholders' Meeting shall complete the board with the legal majorities, ensuring that the requirement is fulfilled. If the composition of the board resulting from the slate voting system does not reflect gender balance, the necessary number of the last candidates of the more represented gender elected from the Majority Slate shall forfeit their post to ensure compliance with this requirement, and shall be replaced by the first candidates not elected from the same slate who are of the less represented gender. In the absence of candidates of the less represented gender on the Majority Slate in sufficient number to proceed with the replacement, the Shareholders' Meeting shall supplement the board with the majorities required by law, thus ensuring that the requirement is met.

For the appointment of Directors, for any reason not appointed pursuant to the procedure described above, the Shareholders' meeting shall vote on the basis of the majorities required by law.

Succession Plans

The Board of Directors has had a procedure for Executive Director succession planning since December 2011. The Board of Directors has assigned the content, updating and monitoring of the succession plan to the Nomination and Remuneration Committee, which utilises the support of the company structure responsible for human resource management.

The architecture of the process is divided into the phases summarised below:

If an Executive Director must be replaced early, the Nomination and Remuneration Committee formulates a non-binding recommendation which it passes on to the Board, which defines the candidate interview arrangements it deems most suitable. Moreover, it has been established that, when the Chief Executive Officer ceases to hold office, his or her powers are as a rule temporarily assigned to the Chairman until the new Chief Executive Officer takes office, unless otherwise determined by the board; where it is the Chairman who ceases to hold office, his or her replacement as chairman of the board is regulated by the By-laws (which provide for the Vice Chairman, if appointed, to take the role), while any management powers will as a rule be assigned to the Chief Executive Officer until the new Chairman takes office, unless otherwise determined by the board.

5.2 Composition

The term of office of the current Board of Directors ends with the Shareholders' Meeting called to approve the 2016 financial statements. The number of members of the outgoing Board, appointed by the Shareholders' Meeting of 16 December 2014 was determined at 13, and their term of office was determined at three financial years. Pursuant to the provisions of the By-laws applicable at that time (which prescribed that four fifths of the Directors to be appointed should be assigned from the Majority Slate, without specific independence requirements), three slates were presented, by the relative majority shareholder at that time, Telco S.p.A., by Findim S.p.A. and by a group of asset management companies and institutional investors (and specifically: Acomea SGR S.p.A., Anima SGR S.p.A., APG Algemene Pensioen Groep N.V., Arca SGR S.p.A., Eurizon Capital SGR S.p.A., Eurizon Capital S.A., FIL Investments International, Fideuram Gestions S.A., Fideuram Investimenti SGR S.p.A., Interfund Sicav, Mediolanum Gestione Fondi SGR p.A., Pioneer Asset Management S.A., Pioneer Investment Management SGR p.A.). The asset management and institutional investors' slate obtained the highest number of votes (50.28% of the capital voting in the Shareholders' Meeting), and hence 10 Directors should have been selected from this slate. In the absence of other candidates, Lucia Calvosa (independent), Davide Benello (independent) and Francesca Cornelli (independent) were therefore elected. While the 3 places reserved pursuant to the Bylaws for the "minority" slates were assigned to the Telco slate (which obtained 45.50% of the capital voting in the Shareholders' Meeting), and therefore the following people were appointed: Giuseppe Recchi, Marco Emilio Angelo Patuano, Denise Kingsmill (independent). For the remaining 7 positions of Director, there was a separate vote, with the legal majorities (absolute majority of votes in favour), based on a slate submitted by Telco, which proposed the appointment of those of its candidates not elected with the slate vote, and consequently the

following people were appointed: Flavio Cattaneo (independent), Giordina Gallo (independent), Tarak Ben Ammar, Laura Cioli (independent), Giorgio Valerio (independent), Jean Paul Fitoussi (independent pursuant to art. 148 CLF), Luca Marzotto (independent). The Findim slate did not obtain a sufficient number of votes to appoint any Directors (3.49% of the capital voting in the Shareholders' Meeting).

On 15 December 2015, in response to a request from shareholder Vivendi S.A. for the agenda to be supplemented, the ordinary shareholders' meeting redetermined the number of members of the Board of Directors, increasing it from 13 to 17, and appointed (with votes in favour equal to 52.94% of the voting capital) Arnaud Roy de Puyfontaine, Stéphane Roussel, Hervé Philippe and Félicité Herzog (independent) Directors. The new Directors will cease on expiry of the term of office of the Board of Directors that was in office at that time, and hence at the Shareholders' Meeting called to approve the financial statements at 31 December 2016,

After the resignations from the Board of Marco Emiliano Patuano (who also held the office of Chief Executive Officer), the Shareholders' Meeting of 25 May 2016 did not appoint a replacement director, and thus redetermined the number of Directors in office to be 16.

The curricula vitae of all the members of the administrative body are available on the website www.telecomitalia.com, About Us Section - Corporate Bodies/Board of Directors channel.

Table 2 provides information on the composition of the Board of Directors.

Maximum accumulation of offices held in other companies

According to Telecom Italia's Corporate Governance Principles, acting as a director of the Issuer is not considered compatible with being a director or statutory auditor in more than five companies, other than those subject to the direction and coordination of Telecom Italia or its subsidiaries or affiliates, which are listed companies included in the FTSE/MIB index and/or companies operating principally in the financial sector dealing with the public and/or companies that perform banking or insurance activities. In the case of executive directors in companies with the characteristics listed above, the limit is reduced to three. No diversified thresholds are envisaged to take account of the Directors' participation in the internal board committees. The Board of Directors may, however, make a different assessment (to be published in the Report), even if departing from the stated criteria. If a Director holds office in more than one company belonging to the same group, only one appointment held within that group shall be taken into account when calculating the number of appointments.

The Directors who served during the 2016 financial year respected the accumulation limits indicated above.

Induction Programme

During 2016, Directors attended specific meetings with the management (including of the subsidiaries) to provide them with adequate knowledge of the business sector in which the Company operates, the corporate controls and dynamics and their evolution, and in preparation for the discussion of the strategic plan. The Control and Risk Committee has also undertaken its own investigation of the models of oversight of compliance activities, which included meetings with managers in the sector working in other business entities of comparable complexity, both Italian and foreign.

The Company has organised personalised induction meetings for all those Directors who requested them (or allowed them to participate in external initiatives).

5.3 Role of the Board of Directors

During 2016, fourteen meetings of the Board of Directors were held; documentation was sent to the Directors, as promptly as compatible with the circumstances of the case (as a rule, the Friday of the week preceding the day on which the meeting is to be held), to enable informed participation in the meetings. In some circumstances, the need for confidentiality or urgency meant that the aforementioned notice period could not be observed, and the documentation necessary for informed execution of the directors' duties was provided directly in the meeting. When required by the subjects dealt with, representatives of the Company management, the Group Companies or external consultants were invited to take part, ensuring the necessary technical and professional support.

The average duration of the meetings was approximately 3 hours and twenty minutes. The percentage of attendance was 93.76% (92.20% for independent Directors).

There are nine formal meetings scheduled for 2017, two of which have already been held.

Tasks reserved to the Board

Without prejudice to the application of the Borsa Code with regard to those matters reserved to the full board (first and foremost: approval and monitoring of the strategic, industrial and financial plans of the Issuer and the Group, and of the related risks), pursuant to the Corporate Governance Principles, the following matters are deemed to have a notable effect on the business of the Company and the Group, and as such are subject to prior resolutions of the board:

- agreements with competitors which, considering the subject, commitments, conditions, or limits that they may produce, have long-term effects on the freedom of strategic business decisions;
- investments and divestments exceeding 250 million euros, and in any event purchases or sales of shareholdings, or businesses or business units that are of strategic significance in the overall framework of the business; transactions that, in their execution or upon their completion, can create commitments and/or purchases and/or sales of this nature and scale;
- the acceptance of loans for amounts exceeding 500 million euros and the granting of loans and guarantees in favour of non-subsidiary companies for amounts exceeding 250 million euros; transactions that, in their execution or upon their completion, can create commitments and/or deeds of this nature and scale;
- the above transactions, to be performed by unlisted subsidiaries of the Group, excluding those controlled by listed subsidiaries;
- the listing and delisting of financial instruments issued by the Company or Group companies in regulated markets inside or outside Europe;
- instructions to be given to listed subsidiaries (and their subsidiaries), when the Parent Company exercises its direction and coordination activity for the performance of transactions with the characteristics indicated above.

The general performance is assessed from time to time in the various meetings and specifically when examining financial reports and data on the progress of operations, with detailed comparison of the results obtained and the budget targets.

The Board of Directors assesses the adequacy of the organisational, administrative and general accounting structure of the business, based on the information supplied by the management, which include continuous information on the changes in the company organisation chart, down to the second level of hierarchical reporting to the Executive Directors, and in any case when developing the strategic plan, identifying the strategic management of the business. Regarding the internal control and risk management system (and the replacement of the management heading the control departments that report directly to it) the Board avails itself of the investigation carried out by the Control and Risk Committee.

Self-assessment

The self-assessment of the Board and its Committees was carried out for 2016, as for every year since 2005. Taking account of the circumstance that 2016 is the third and last year of the term of office of the serving Board, it was felt to be advisable, also in relation to the activity of raising awareness among the shareholders ahead of the renewal (see the report on this topic to the Shareholders' Meeting, in a comment to item 3 on the agenda), to seek the support of a consultant, identified in Egon Zehnder, which in TIM had already carried out the self-assessment of the Board and its Committees in 2006.

The consultant developed a questionnaire, sharing it with the Nomination and Remuneration Committee, and submitted it to all the Directors (and to the Chair of the Board of Statutory Auditors), prior to the interviews held in the month of January. After the individual phase, there was a meeting to share and discuss the results of this activity, as summarised in a summary report. The areas specifically considered were Leadership of the Board of Directors, Organisation and Rules, Board Membership, the Work of the Board and Strategy.

The following were identified as the strong points of the Board of Directors currently in office:

- capacity to grow and improve over time;
- freedom of opinion;
- level of involvement and commitment of the members;
- the internal atmosphere, independence of debate, and cohesion;
- quality of training, information and discussion;
- the personal and professional characteristics of all the Directors.

While the aspects that were thought to require work were:

- continuity, through consolidation of the current membership (in most cases the Directors are in their first term of office in TIM);
- the promptness and management of information flows.

Understandably, corporate governance qualifies as an area of excellence (in terms of the solidity of the rules and internal processes), and as an area that needs further and additional commitment, from the perspective of continuous improvement, and thus the aims achieved are only the starting point for the pursuit of new and more challenging ones.

Competing activities

Where the Shareholders' Meeting of 16 April 2014 authorised the Directors appointed at that time to pursue the activities indicated in their respective curricula vitae (with release from the competition prohibition pursuant to art. 2390 of the Italian Civil Code, as necessary), the Shareholders' Meeting of 15 December 2015 did not approve the release from the competition prohibition of the new Directors in relation to the same activities, pursuant to article 2390 of the Italian Civil Code, where applicable. Regarding this, the Board of Directors, at its next meeting, deemed it

opportune to proceed to consider the matter further (investigations carried out with the support of legal and business experts), and after this further consideration ascertained that - in the present circumstances, there are no relevant competition aspects regarding Directors de Puyfontaine, Roussel, Philippe and Herzog, having considered the activities they undertake, as described in their respective curricula vitae. At the same time, the Board agreed that scrupulous observance of the regulations on directors' interests, and of the procedure for performing transactions with related parties was important, and committed to monitor it careful.

During 2016 there were no circumstances that were problematic in terms of the specific legal provision.

5.4 Delegated bodies

On 16 April 2014, the Shareholders' Meeting appointed Giuseppe Recchi Chairman of the Board of Directors.

In its meeting on 18 April 2014, the Board of Directors appointed Marco Patuano as Chief Executive Officer, establishing his powers and those of the Chairman; the latter was assigned powers of supervision and guarantee, consistent with and for the purpose of the role attributed to him by law and by the corporate governance documents, for the governance of the activities of the Board as a whole, as well as the institutional representation of the Company and the Group.

On 22 March 2016, the Chief Executive Officer, Marco Patuano, offered his resignation. The succession process then started, at the conclusion of which, in the board meeting on 30 March 2016, one of the directors, Flavio Cattaneo (who previously qualified as an independent, and did and does not serve as a director or statutory auditor of any company in which any of the remaining Directors of Telecom Italia held or hold office as chief executive officer), was appointed Chief Executive Officer. In addition to conferring powers on the newly-appointed Flavio Cattaneo, the powers of the Chair were also re-attributed, with some changes, in the same meeting. Currently, the mandates and powers are therefore as listed below.

In addition to the powers attributed by the law and the By-laws in relation to his office, the attribution to the Chairman of mandates and powers relating the activities listed below:

- definition of guidelines for Group development, in agreement with the Chief Executive Officer, with powers to identify and analyse extraordinary transactions;
- supervision of the processing of strategic, industrial and financial plans, from creation to development, as well as checking the implementation of board resolutions;
- supervision of the definition of the organisational structures and the power to organise and decide on the size of the labour force and the resources needed for the exercise of his functions, making direct use of the HR function that reports to the Chief Executive Officer;
- supervision of the economic and financial performance of the Company and the Group;
- oversight of the review and definition of the guidelines of the internal control system;
- supervision of security issues and of the company Telecom Italia Sparkle;
- representation of the Company and the Group in its external relations with all the Italian and International Institutions and Authorities, and with Investors (it being understood that the Investor Relations function reports to the Chief Executive Officer);
- organisational responsibility for the following functions that report directly to him:
 - Legal Affairs (although the Chief Executive Officer retains the right to avail himself of the Legal Affairs Department for support needed in operations);
 - Institutional Communication (although the Chief Executive Officer retains the right to avail himself of the Press Office for support needed in operations, coordinating with the Executive Chair);
 - Public Affairs;
 - responsibility for the Brand Strategy and Media function;
- organisational responsibility for the Corporate Shared Value function (including responsibility for the drafting of the sustainability report) and governance of Fondazione Telecom Italia.

Attribution to the Chief Executive Officer of:

- all the powers, to be exercised with a single signature, to perform actions pertinent to the activity of the company in its various manifestations, without exclusion, apart from those powers reserved by law or the Bylaws to the Board of Directors, and those assigned to the Executive Chairman;
- responsibility for the overall governance of the Company and the Group and, in particular, without prejudice to the powers delegated to the Executive Chairman:
- responsibility for administration activities (including drawing up the annual financial statements) of ordinary and extraordinary finance, taxation, management control and Investor Relations;
- responsibility for defining, proposing to the Board of Directors and then implementing and developing strategic,

- industrial and financial plans;
- responsibility for defining the organisational structure, HR policies and relations with Trade Unions;
- all organisational responsibilities to ensure the management and development of the business in Italy and South America;
- responsibilities for market disclosure with reference to the Company;
- responsibility and powers regarding the processing and protection of personal data, with reference to the Company;
- overall responsibility for the secondary office in Rome at Corso d'Italia 41 (collectively, the "Powers").

On 23 March 2017, the Board of Directors, on the basis of the organisational review carried out in the second half of 2016, ascertained the presence in the company of various production units, identified in the business lines, in the Technology and Business Support Office departments, as well as in the set of Staff departments. It therefore revoked the resolution made on 30 March 2016 in the part in which the responsibility of an employer was attributed to the Chief Executive Officer, and nominated, as employers:

- Stefano Ciurli in relation to the Wholesale activities and divisions;
- Lorenzo Forina in relation to the Business & Top Clients activities and divisions;
- Stefano Azzi in relation to the Consumer & Small Enterprise activities and divisions;
- Giovanni Ferigo in relation to the Technology activities and divisions;
- Piergiorgio Peluso, in relation to the Business Support Office activities and divisions;
- Francesco Micheli, Head of Human Resources and Organizational Development, in relation to the activities and divisions of the Staff department.

Given the frequency with which the Board of Directors meets, the Executive Directors normally report on the activities they have carried out during board meetings, often after having transmitted specific information documents beforehand.

5.5 Other executive Directors

On 31 December 2016, only the Chairman and Chief Executive Officer were considered executive directors. The Vice Chairman of the Board of Directors, Arnauld Roy de Puylfontaine, appointed on 27 April 2016 with functions vicarious to those of the Chairman, as prescribed in the By-laws, has no particular operational mandates or executive powers.

5.6 Independent directors

Telecom Italia has adopted the criteria established by the Corporate Governance Code for the qualification of the independence of Directors.

After the appointment of a director, Flavio Cattaneo (who had qualified as independent) to the office of Chief Executive Officer, of the current 16 serving Directors, 9 are in possession of the independence requirements specified in the Borsa Code. The same Board, in its meeting on 03 February 2017, checked that its members continued to meet the requirements for independence, and acknowledged (i) that Directors Benello, Calvosa, Cioli, Cornelli, Gallo, Herzog, Kingsmill, Marzotto and Valerio possessed the requirements of qualified independence, pursuant to the Corporate Governance Code, and (ii) the same Directors, plus Mr Fitoussi (who, specifically, had on 6 May 2013 accumulated nine years' service as a director, since his first appointment to the Board of Directors of Telecom Italia) possessed the requirements of independence pursuant to the CLF. At the time of their initial candidature, none of the independent Directors in office undertook to maintain independence for the entire term of office. Moreover, the Directors appointed by the Shareholders' Meeting on 16 April 2014 undertook to promptly inform the Company of any change to the information supplied upon acceptance of their candidature in their respective slates.

The check by the Board of Statutory Auditors on the ascertainment that the Directors (continued to meet) the requirements, including the application of the independence criteria, was carried out in its meeting of 15 February 2017, with a positive outcome.

5.7 Lead Independent Director

In its meeting of 5 August 2014 the Board of Directors established the period of office of the Lead Independent Director as one financial year, so as to ensure that a series of different directors held the role during the term of office

of the board. The role was therefore held by Ms Cornelli in the 2014 financial year, and by Mr Valerio in 2015. As designated by the independent Directors, Mr Benello was therefore appointed as Lead Independent Director for 2016 (i.e. until the approval of the relevant financial statements by the Shareholders' meeting) in the board meeting on 26 July 2016.

The role, well consolidated in Telecom Italia (introduced from 2004, in light of international best practice and based on practice in the United States) represents the reference and coordination point for the requests and contributions of the independent directors and the non-executive directors in general. The Lead Independent Director is granted the right to use corporate structures to perform the tasks entrusted to him and to convene special meetings of only the independent Directors to discuss issues affecting the functioning of the Board of Directors or the management of the business, and may invite representatives of the management of the Group to these meetings. During 2016 there were three of these meetings; attention was focussed on the analysis of organisational and strategic issues, according to the topics discussed in the full board meetings. During 2017 the Independent Directors met once.

6. HANDLING OF CORPORATE INFORMATION

Telecom Italia adopted and has consolidated over time an articulated set of rules and procedures for the correct management of the information processed in the company, in compliance with the laws applicable to the various types of data; these rules act on the organisational and technical plan and on the operating procedures. The handling of information, in particular, is supported by information systems and processes linked to their development, maintenance and use, which are governed by specific company rules and requirements, are the object of dedicated organisational oversight carried out by the Security department for ICT Risk Management and information protection aspects, and by the IT & Security Compliance department for policy and compliance control aspects.

After EU Regulation 596/2014 (the "Market Abuse Regulation" or MAR) came into force in July 2016, the Board of Directors, on 3 February 2017, notwithstanding the non-completion/non-adaptation of the Italian regulatory framework, approved the replacement of the Procedure for the internal management and disclosure to the public of inside information (adopted on 5 August 2014) and its replacement with a new inside information and insider dealing Procedure, currently being deployed, mandated to the Chairman and the Chief Executive Officer. It remains understood that further changes may be made by the legislative bodies and/or Consob, which could require its modification (including in the short term).

Furthermore, the document incorporates the direction already issued by Consob, the interpretations issued by Assonime, and of a new IT application is being adopted to support it. In particular, the aforementioned procedure:

- provides rules for the identification of inside information (defining criteria and responsibilities/processes). In contrast to the preceding Procedure, it prescribes that decisions should not be taken by information owners independently, but should be taken with the necessary intervention of the General Counsel and Chief Financial Officer, for those aspects within their respective remits, and with the aim of making the judgement uniform. In light of the new legal context, the approach of "anticipating" the moment that inside information becomes important *in itinere* is being abandoned, but the extension of the safeguards to protect the confidentiality of inside information to information that still does not possess the requirements of precision, but which, if it should become precise, would be liable to be qualifiable as inside information, is confirmed;
- sets out the obligations and prohibitions deriving from access to inside information, or from the possibility of generating such information (which is a typical characteristic of insiders), emphasising the principle that knowledge and application of the regulation that applies to informed people and/or insiders are the personal responsibility of the respective recipients;
- provides rules for the phase of public disclosure (and delay in disclosure) of inside information, setting out the roles and responsibilities of the various subjects involved;
- describes the ways in which the obligation to draw up lists of people who have access to inside information may be complied with, envisaging the activation of a specific supplementary section applicable only to those who have permanent access to all the Company information that qualifies as inside information (essentially: the Executive Directors and the departments structurally involved in the phase of establishing the inside nature of the information);
- provides a series of operational references, principles of application and criteria for interpretation on the topic of insider dealing and the closed period;
- sets out the legal penalty regime that applies in case of non-compliance with the relevant law, also setting out the contractual responsibility aspects of breaching this regime (and its possible consequences).

Once in operation, the procedure will be available on the website www.telecomitalia.com About Us section - Governance System/Procedure channel.

In its meeting on 17 January 2013, the Board of Directors resolved to avail itself of the right to waive the obligations to publish information documents in case of significant merger or de-merger, purchase or sale operations, or operations to increase the share capital by investment in kind.

7. INTERNAL BOARD COMMITTEES

The internal Board committees are a Nomination and Remuneration Committee and a Control and Risk Committee, and, since 26 July 2016, a Strategy Committee, the functions of which are described in the Corporate Governance Principles.

The Chair of each board Committee reports to the full board on the issues dealt with at the first useful meeting.

The conclusion of relevant transactions with related parties is subject to examination by the Control and Risk Committee in case of transactions of less importance, or by a Committee made up of all the independent Directors in case of transactions of greater importance (see paragraph 13).

8. NOMINATION AND REMUNERATION COMMITTEE

Composition and functioning

The regulations of the Nomination and Remuneration Committee are contained not only in the Corporate Governance Principles but also in the special Regulations approved by the Board of Directors at its meeting of 5 August 2014 (document available on the website www.telecomitalia.com, About Us section, Governance System/Regulations channel; including, in particular, the principle for drawing up the minutes of Committee meetings).

The Committee comprises non-executive Directors, the majority of whom are independent directors, with at least one Director from a minority slate submitted pursuant to the Bylaws. The members of the Committee must possess adequate skills for the tasks they are called on to carry out; at least one member shall possess adequate skills in financial matters or pay policies. In its current composition (increased from 4 to 5 members on 15 February 2016), all the Directors who sit on the Committee possess adequate skills in financial matters and pay policies.

At its meeting on 9 May 2014 the Committee nominated as its Chairman the Director Davide Benello. The composition of the Committee is shown in Table 2.

Functions and activities performed

The Committee, which combines – on the basis of operational efficiency considerations – the duties and the responsibilities attributed to the nomination committee and the remuneration committee by the Borsa Code, also, pursuant to the corporate governance principles:

- oversees the succession plan for Executive Directors, and monitors the updating of the company management replacement lists, prepared by the Executive directors;
- establishes the procedure and period for the annual evaluation of the Board of Directors;
- proposes the criteria for allocating the total annual compensation established by the Shareholders' Meeting for the whole Board of Directors;
- performs other duties assigned to it by the Board of Directors.

During 2016 the Committee defined the planning of its activities for the execution of the tasks assigned to it, and there were twelve meetings (average length: 1 hour and 5 minutes). In particular, the Committee managed the process of replacing the Chief Executive Officer, enabling the current Chief Executive Officer, Flavio Cattaneo, to be appointed on 30 March 2016, after the resignation of his predecessor on 22 March 2016; it monitored the deployment of the remuneration policy for the Chair and Chief Executive Officer for the year; it completed the regulation of the claw-back clause, applied to the variable remuneration measures applicable to the Executive Directors and executive officers from the 2016 financial year onwards; it investigated (without the participation of the interested party, Mr de Puyfontaine) the proposal for additional remuneration to be attributed to the Vice Chairman pursuant to art. 2389, subsection 3, of the Italian Civil Code; also reviewed the proposal for the remuneration of the members of the Strategy Committee and it defined the arrangements for the board evaluation 2016; it oversaw the updating of the planning process for the succession of the Executive Directors and Top Management.

For further information on the work of the Committee relating to the 2017 remuneration policy, see the Remuneration Report.

The Committee (whose meetings are attended by the Chair of the Board of Statutory Auditors or any other Auditor designated by said Chair, without prejudice to the possibility for all Statutory Auditors to attend) was able to access the information and company departments necessary to carry out its tasks, inviting the managers responsible for the areas being discussed in each case to provide support. The Committee was not assigned financial resources of a

predetermined amount, but was able autonomously to bring in external consultants. In particular, it identified Mercer Italia, having ascertained in advance that is not in situations that might compromise its independence of judgement, as its advisor for the two year period 2015-2016.

The percentage of attendance at meetings in 2016 was 89.25%. Three meetings have already taken place in 2017.

9. REMUNERATION OF DIRECTORS, GENERAL MANAGERS AND KEY MANAGERS WITH STRATEGIC RESPONSIBILITIES

Information on the financial remuneration of the directors, general managers and key managers with strategic responsibilities are reported in the Remuneration Report (see the comparison table).

10. CONTROL AND RISK COMMITTEE

Composition and functioning

The regulations of the Control and Risk Committee are contained not only in the Corporate Governance Principles but also in the specific Regulations approved by the Board of Directors at its meeting of 5 August 2014 (available on the website www.telecomitalia.com, About Us section, Governance System/Regulations channel; including, in particular, the principle for drawing up the minutes of Committee meetings).

The Committee comprises non-executive Directors, all of whom are independent directors, at present, with at least two from a minority slate submitted pursuant to the Bylaws. The members of the Committee must have adequate skills for the tasks they are called on to carry out; at least one member shall possess adequate skills in accounting and finance or risk management. At its meeting on 8 May 2014 the Committee nominated as its Chairman the director Lucia Calvosa. For the composition (increased on 15 February 2016 from 5 to 6 members), see Table 2.

Functions and activities performed

Without prejudice to the duties attributed by the Borsa Code and the internal corporate rules (which, in particular, assign to the Committee the oversight of transactions with related parties:(see paragraph 13 below), the Committee:

- provides high-level supervision related to corporate social responsibility, monitoring the consistency of the actions performed with the principles laid down by the Code of Ethics of the Group and the values of Telecom Italia;
- monitors observance of the Company's corporate governance rules, the evolution of rules and best practice in the field of controls, corporate governance and corporate social responsibility, also with a view to proposing updates to the internal practices and rules of the Company and the Group;
- performs other duties assigned to it by the Board of Directors.

The Chairman of the Board of Statutory Auditors attends those Committee meetings that are not held jointly with the former (or, if he cannot attend, another Auditor delegated by him will take his place) without prejudice to the possibility for all Statutory Auditors to attend. With reference to control issues, the Director who represents the link between the Board of Directors and the control structures that report directly to the Board (see paragraph 12.6) participates; furthermore, on 26 June 2014 said role was assigned to Ms Calvosa, who already acted as Chair of the Committee.

During 2016 the Committee, *inter alia*: prepared the process for replacing the Heads of the Audit and Compliance Departments; considered a series of financial disclosure-related issues, including (i) the management proposal to confirm, in 2017, the publication of quarterly reports, in full continuity of content and disclosure timing, (ii) the solution of engaging a financial consultant (Professor Lorenzo Pozza) and a business expert (Professor Carlo Cambini) to work alongside the management in the impairment test process, to guarantee its soundness, (iii) the PriceWaterhouseCoopers plan for the audit of the 2016 financial statements; oversaw the Enterprise Risk Management process, providing support to the Board of Directors in the definition of enterprise risk appetite and monitoring the trend in the risk tolerance indicators over time; expressed the opinions required of it pursuant to the procedure for transactions with relevant related parties, also acquiring reports on transactions recorded in the system (see paragraph 13 of the Report); periodically reviewed the reports on the maintenance of the register of people with access to inside information pursuant to art. 115-bis of the CLF; analysed the reports of the control departments, acquiring the assessments of the internal control and risk management system, sharing and confirming them; expressed its opinion on the planning of the activities of the control departments, monitoring their progress and requesting specific interventions -- when it deemed this necessary. The Board of Directors and management were informed of all of the above as they occurred. The Committee had access to the necessary information and corporate departments for performing its tasks. Financial resources of a predetermined amount were not assigned for this purpose, but the Committee was able autonomously to bring in external consultants of its choice.

During 2016 the Committee held sixteen meetings (of which 9 jointly with the Board of Statutory Auditors), supported – when invited to attend – by the Executive Directors and/or by the specialist contributions of company management or consultants. The average duration of meetings was approximately 3 hours and fifty-five minutes and the percentage attendance was 91.17%.

In 2017, the Control and Risk Committee has already met three times.

11. STRATEGY COMMITTEE

Composition and functioning

The Strategy Committee was created by resolution of the Board of Directors on 26 July 2016; in addition to the Corporate Governance Principles it is governed by its own Regulations (available at the website www.telecomitalia.com, About Us section, Governance System/Regulations channel); its Regulations specifically require that the meetings of the Committee are minuted).

The Committee is composed of the Chair of the Board of Directors and the Chief Executive Officer (who ensure its coordination with the management of the Group), as well as non-executive directors with expertise in technology, organizational strategies and corporate finance. The Board of Directors appoints and revokes the members of the Committee other than the Chairman of the Board of Directors and the Chief Executive Officer, determining their number (no less than 2 and in any case setting the number of members as less than half of the full board, as established by the Shareholders' Meeting) until it decides on a different number. The Committee meets as frequently as is necessary to perform its functions and, in any event, in accordance with the business planning schedule of the Board of Directors. The Chair of the Committee (chosen at the discretion of the Committee itself, from among its members) calls the meetings at the request of the Chairman of the Board of Directors or the Chief Executive Officer, and coordinates its work.

The Committee reports on the activities performed to the Board of Directors in the most appropriate manner, and in any case on each occasion at the first possible meeting, through its Chairman.

The composition of the Committee is shown in Table 2.

Functions and activities performed

The Committee carries out the duties of a fact-finding and consulting nature attributed to it by the Corporate Governance Principles. In particular:

- assure support on matters of strategic importance;
- at the request of the Chairman of the Board of Directors and the Chief Executive Officer, and in coordination with the prerogatives of their respective offices and powers, carry out preliminary assessments on the strategic choices of the Group;
- provide opinions and formulate recommendations on strategic plan proposals to bring to the Board of Directors.

During 2016 the Committee met once; this meeting lasted thirty minutes, all its members attended, and it focused on organisational issues (firstly: the appointment of its Chair, identified in the Vice Chairman of the Board of Directors, Mr de Puyfontaine) and its work plan, dictated by the strategic planning of the Company.

12. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

General

The internal control and risk management system (hereafter, for brevity: the Internal Control System) is organised and operates according to the principles and criteria set out in the Corporate Governance Code. It is an integral part of the general organisational structure of the Company and the Group, and involves several components that act in a coordinated way according to their respective responsibilities – the responsibility of the Board of Directors to direct and provide strategic supervision, the responsibility of the Executive Directors and management to monitor and manage, the responsibility of the Control and risk Committee and the Head of the Audit Department to overview and provide support to the Board of Directors, and the supervisory responsibilities of the Board of Statutory Auditors.

An effective internal control and risk management system contributes to ensuring, *inter alia*, the reliability of all information (not just financial information) supplied to the company bodies and to the market.

In particular, the internal control system consists of the set of rules, procedures and organizational structures that, through a process of identifying, measuring, managing and monitoring the principal risks, allows the sound, fair and consistent operation of the company in line with the pre-established objectives. As such this process is aimed at pursuing the values of both procedural and substantial fairness, transparency and accountability, which are considered

key factors for managing Telecom Italia's business, in compliance with the Code of Ethics and Conduct of the Group (available on the website www.telecomitalia.com, *About Us* section - *Governance system/Codes* channel) and the Corporate Governance Principles. This process, constantly monitored with a view to progressive improvement, is intended to ensure, in particular, the efficiency of company operations and entrepreneurial conduct, its transparency and verifiability, the reliability of information and management and accounting data, and compliance with applicable laws and regulations as well as the safeguarding of company integrity and its assets, in order to prevent fraud against the Company and the financial markets.

The Board of Directors (which is responsible for approving annually the work plans of the control departments that report directly to it, after having obtained the opinions of the Board of Statutory Auditors and the Executive Directors) defines the guidelines for the Internal Control System, verifying its adequacy, effectiveness and proper functioning, so that the main corporate risks (including, among others, operational, compliance-related, economic and financial risks) are properly identified and managed over time. In carrying out its assessment compared to 2016, the Board endorsed the judgement expressed by Internal Audit (already shared by the Control and Risk Committee), according to which, with reference to the specific operational contexts analysed during the year, given the weaknesses of varying intensity found, and having assessed the process of implementation of the improvement initiatives undertaken by the owner functions to quickly overcome these weaknesses, the internal control system can be considered capable of reducing the risk profiles to a level acceptable for the correct operation of the business processes.

Enterprise Risk Management

The Telecom Italia Group has adopted an Enterprise Risk Model (or ERM) which enables risks to be identified, assessed and managed in a homogeneous way within the Group companies, highlighting potential synergies between the players involved in the assessment of the Internal Control System. There is particular focus on the relationship between the ERM process and the business planning process, particularly in proposing the acceptable level of risk for the Group (Risk Appetite), as well as its distribution in levels of acceptable deviation on the principal corporate objectives (Risk Tolerance).

The process is directed by the ERM Steering Committee. The Steering Committee assures governance of Group risk management, aimed at guaranteeing the operational continuity of the business, monitoring the effectiveness of the countermeasures adopted. The ERM process is designed to identify potential events that may impact on business activity, to bring the risk back within acceptable limits and to provide reasonable assurance of the achievement of the corporate objectives.

The process adopted is cyclical and consists of the following output:

1. Definition of Risk Appetite and Risk Tolerance

- **Risk Appetite** is the amount and type of risk that a company is willing to take, overall, to create value, that is in order to meet their strategic objectives (the *Committee of Sponsoring Organizations of the Treadway Commission* definition, CoSO 2013). It is defined annually by the Board of Directors in the sessions dedicated to the approval of the Strategic Plan, after evaluation by the Control and Risk Committee. If the Risk Appetite level is exceeded, the Board assesses the reasons for this, and the adequacy of the recovery plans.
- **Risk Tolerances** represents the level of risk that the Company is willing to take, with reference to the single categories of objectives (strategic, operational, compliance and financial: according to the CoSO classification). Within each category of objectives (Strategic, Operational, Financial), the relevant KPIs in the Strategic Plan are identified, on which the Risk Tolerance thresholds that are coherent with the aforementioned definition of Risk Appetite are expressed.

Monitoring of compliance with Risk Appetite and Risk Tolerances is quarterly, and is reported to the Control and Risk Committee.

2. Identification of the Risk Profile

The Risk Universe is the document which contains the description of the principal characteristics of all the risks identified, through a process that involves the whole company. These risks are positioned on a specific matrix, the dimensions of which are inherent risk level, linked to the potential deviation from the Strategic Plan that might derive from the occurrence of a risk event, and the level of oversight. The matrix enables intervention priorities for the mapped risks to be directed.

3. Mitigation Actions

The risks that present incomplete levels of oversight are dealt with through specific mitigation actions with associated projects overseen by the process owner, with the support of the Enterprise Risk Management function.

4. Reporting

Periodic reporting to the ERM Steering Committee, the Corporate Bodies involved, and the Executive Directors, on the outputs mentioned above.

Financial risks

Regarding financial risks, the Group is exposed to:

- market risk: arising from variations in interest and exchange rates related to financial assets and financial liabilities incurred;
- credit risk: representing the risk of non-fulfilment of obligations assumed by a counterparty in relation to the utilization of liquidity;
- liquidity risk: related to the need to meet short-term financial liabilities.

These risks are faced through (i) the definition of guidelines which must motivate the operations, (ii) the operation of an internal management committee which monitors the level of risk exposure in line with the pre-set objectives, (iii) monitoring the results achieved. In particular, management policies include:

- for market risk: fully hedging the exchange risk and minimizing exposure to interest rates through appropriate diversification of the portfolio, including through derivative financial instruments;
- for credit risk: liquidity management based on prudential criteria and articulated primarily in money market management activities (investment of temporary cash surplus) and bond portfolio management (investment of a permanent level of liquidity). In both situations, in order to reduce the risk of non-fulfilment of the obligations assumed by a counterparty, the counterparties and selected issuers have a credit rating within the limits established by the guidelines, and a careful policy is pursued to diversify the use of liquidity and allocate credit positions among the different banks;
- for liquidity risk: an adequate level of financial flexibility obtained by maintaining a Treasury margin that allows the refinancing requirements to be covered for at least the next twelve months.

Financial Reporting

Financial information has a central role when maintaining positive relationships between the company and those it interacts with, contributing – in addition to the company performance – to create value for the shareholders.

The internal control system on financial reporting is aimed at supplying reasonable assurance of the trustworthiness, accuracy, reliability and promptness of the financial reporting. For that purpose, Telecom Italia has prepared and constantly updates a regulatory/documentary system including accounting principles of the Group, administrative and accounting procedures, guidelines, operation instructions, accounting manuals and a chart of accounts, intended to guarantee an efficient coordination and exchange of information between the Parent company and the subsidiaries as well as the correct drafting of the separate and consolidated financial statements. In order to guarantee compliance with the Italian and U.S. laws, the Company operates a structured and documented model of detection and monitoring of risks connected to the financial information, which refers to the 2013 CoSo framework. This model, managed with a specific piece of software, brings together the internal controls associated with the risks identified on the financial reporting and the consequent assessment activities, with precise attributions of responsibility, in compliance with the principle of accountability.

The system of risk management and internal control on the financial reporting of Telecom Italia is a process that operates continuously, for which periodic assessment phases are prescribed, intended to document and assess its planning and operational effectiveness.

The process starts with the identification and assessment of the risks regarding financial reporting. For that purpose, Telecom Italia defines identification criteria of the organization limits and of the “significant” processes in terms of potential impact on the financial reporting (understood as the reporting contained in the financial statements prospectuses and the explanatory notes), as well as on the risks resulting from non-achievement of the control objectives, due to potential non-intentional errors or frauds, if capable of having a significant impact on the financial reporting. In particular, the annual process starts with the identification of the accounts and disclosures in the financial statements that are deemed significant, whether in terms of their quality value or with reference to updated materiality parameters. The reporting units that contribute significantly to the composition of the previously selected items are then identified. In parallel, the processes associated with these items are identified, and, for each process, the inherent risks are assessed, contextualising the risk of non-achievement of the general control objectives, phase by phase. The frequency of this assessment, at least once a year, allows the new risks inherent in the financial reporting, deriving from the evolution of exogenous or endogenous factors. The process continues with a more operational phase that involves determining the controls for the risks identified, during which Telecom Italia updates and documents the controls carried out in the company that are able to mitigate the identified risks. Telecom Italia uses different types of controls in its model, in order to assess all the components of the control system relating to the objective of trustworthy financial reporting. The Entity Level Controls are defined at Group/Company/Organisational Unit level, and have a pervasive impact on the effectiveness of the controls defined at process, transaction or application level; this set of controls therefore provides a representation of how sensitive the organisation is on topics such as corporate governance, risk management, responsibilities for the internal control system, the attribution of powers and responsibilities. The IT General Controls are controls that are applicable to all the systems, processes and data of the IT

organisations, and they meet specific objectives¹. The Process Controls are the controls to protect the company processes and are carried out through human intervention and/or by IT applications.

The assessment phase of the controls against the risks identified is carried out through test activities, managed by a methodology guide and a strategy that are updated annually. Using top-down and risk-based logic, the test activities are differentiated by timing and depth, in relation to the type, classification and other characteristics of the controls. The test activities are designed to check both the efficacy of the design and the operational effectiveness of the control. If there is a negative outcome, due to a lack of efficacy in the design and/or operation of a control, the risk of error is then assessed in terms of probability and impact. The risk is then managed through the opening of a formal control shortcoming and with the definition, scheduling, and assignment of responsibilities for specific remedial plans.

The certification process is guided by an organisational procedure that identifies the roles and responsibilities for the different phases of its execution. The Chief Financial Officer retains the final responsibility for the whole process, and has a direct responsibility in the periodic definition of the perimeter of application of the reference standards, in the final and overall assessment of the financial reporting internal control system and in the management of relations with the Independent Auditor, assisted by his own specialist departments. The management, with the support of resources who coordinate the activities planned in the certification calendar in each business function/company, is responsible for identifying, implementing and assessing the controls against the risks identified, and consequently for the assessment and management of the control shortcomings, as well as for the execution of the remedial plans needed to overcome them. The offices of the Group Compliance Officer are responsible for the definition and updating of the methodology for monitoring the end-to-end process; together with the IT& Security Compliance function for the technological area, they supervise the designing of the controls and are responsible for the assurance activities (independent testing, follow-ups to check the assessment of the overcoming of the control shortcomings) to strengthen the management certification, and they provide support to the management and the Chief Financial Officer in all phases of the process. The Chief Financial Officer receives periodic reports from the Group Compliance Officer on the progress of the activities and the results of the certification process. Furthermore, the Group Compliance Officer periodically brings the findings of the above (and in particular, any control shortcomings deemed significant/material in terms of potential impact of error/fraud on the financial reporting) to the attention of Control and Risk Committee and the Board of Statutory Auditors, as well as a summary of the evolution of control shortcomings for the current certification year.

12.1 Director in charge of the Internal control and risk management system

The institution and maintenance of the Internal Control System are assigned to the Executive Directors (i.e. Chair and CEO), each with respect to the area delegated to him/her, and to the Executive responsible for preparing the corporate accounting documents (i.e. Piergiorgio Peluso) for his area of competence, so as to ensure the overall adequacy of the Internal Control System and its practical functionality, in a risk-based perspective.

The Executive Directors oversee in the context of the ERM process the identification of the major company risks (strategic, operational, financial and compliance) in the operational areas covered by their mandates. They implement the guidelines defined by the Board, overseeing the design, creation and management of the Internal Control System and constantly checking the system's adequacy and efficacy. They report on issues and critical points that emerge during the execution of their activities to the Board of Directors. They may also ask the Internal Audit department to carry out audits on specific operational areas and on compliance with the internal rules and procedures in the execution of the company operations, giving simultaneous notice to the Chairman of the Board of Directors, and the Chairs of the Control and Risk Committee and the Board of Statutory Auditors.

12.2 Head of audit department

Pursuant to the Corporate Governance Principles, in exercising the responsibility of the Board of Directors for the Internal Control System, the Board, in addition to the Control and risk Committee, also utilises the Head of the Audit Department, a manager with an adequate level of organisational independence and adequate and sufficient resources to perform this duty. The latter is responsible for supporting the management and control boards in assessing the adequacy and effectiveness of the Internal Control System and consequently to propose corrective measures in case of anomalies and malfunctions.

In accordance with the provisions of the Corporate Governance Code, the Head of the Audit Department:

- 1) verifies, both on a continuous basis and in relation to special needs, in conformity with international standards, the

¹ Such as the integrity of programmes, files and data, the correct development and production of applications, the correct management of changes to applications.

adequacy and effective functioning of the Internal Control System, through an audit plan approved by the Board of Directors, based on a structured analysis and ranking of the main risks;

- 2) is not responsible for any operational area and reports directly to the Board of Directors;
- 3) has direct access to all information useful for the performance of his or her duties;
- 4) drafts periodic reports containing information on his or her own activity, and on the risk management process, as well as about compliance with the plans defined to mitigate these risks. Such periodic reports contain an evaluation of the adequacy of the Internal Control System;
- 5) prepares timely reports on particularly significant events;
- 6) transmits the reports specified in points 4) and 5) to the Chairs of the Control and Risk Committee and the Board of Statutory Auditors, as well as to the Chairman of the Board of Directors and the Chief Executive Officer in relation to the powers assigned to them for Internal Control issues;
- 7) tests the reliability of the information systems, including the accounting system, as part of the audit plan.

The Head of the Audit Department also carries out their activities in the subsidiary companies without corresponding audit structures, acting in their interests and reporting to their governing bodies. If subsidiary companies have their own audit departments, the TIM Audit Department interfaces and collaborates with them, for coordination, homogeneity and methodological approach, compatible with respect for the applicable regulations and the responsibilities of said structures.

The Audit Department executes its mandate by providing the following services:

- assurance, through interventions to assess the governance, risk management and control processes of the organisation (audits and complementary activities, “third level” controls, including the monitoring and follow-up on the implementation of the improvement plans defined by the structures in question);
- consultancy to support company departments on the subject of governance, risk management and control (including, for example, participation in company work groups, training initiatives and risk response tables initiated as part of the risk management process, as well as specific analyses for professional contributions).

These services regard, in particular, the following business areas:

- *Technical* – dealing with processes with technological content (IT, Network Services and ICT supplies, and Infrastructure);
- *Enterprise* – dealing with commercial processes and transverse support processes;
- *Financial* – dealing with issues of an accounting and financial nature.

The Head of the Audit Department also acts as guarantor that the principles and values expressed in the Code of Ethics and Conduct are respected. To do this, they oversee the receipt, analysis and handling of reports (“whistleblowing”) of conduct suspected of not being compliant with laws, regulations and external discipline of any kind that applies to the Group, the TIM Group Code of Ethics and Conduct, the Group Policy on the Respect for Human Rights, the Organisational Model 231 adopted by the Group, or internal procedures. Pertinent issues in the complaints and reports received by the Boards of Statutory Auditors (also eventually in their role as 231 Supervisory Board) of the TIM Group companies are also the subject of analysis.

Reports can be transmitted (also anonymously) and are managed using a software application which whistleblowers can access on the company intranet or the Group website. Reports can be made by any employee, collaborator, consultant, work provider or third party that has business dealings with the Group. For each report, the system assigns an unequivocal ID code, which allows the whistleblower to check its progress in an anonymous way.

The Audit department resorts to professional and financial resources consistent with its organisational mandate, in compliance with the requirements of independence, adequacy, efficiency and effectiveness of the department prescribed by Borsa Code.

The Head of the Audit Department promotes, develops and supports a quality improvement and assurance programme that covers all aspects of internal audit activities. The programme includes an assessment of compliance with the International Professional Practices Framework (IPPF) and the company internal audit procedures, and a continual assessment of the effectiveness and efficiency of its work, also with reference to best practice for the sector.

The Head of the Audit Department periodically reports to the Board of Directors, through the Control and Risk Committee, on the results of these assessments.

In its meeting on 26 July 2016, the Board of Directors, after having obtained the favourable opinion of the Control and Risk Committee, and having consulted the Board of Statutory Auditors, appointed Mr Daniele Gulinatti (the former Head of Security) as Head of the Audit Department, replacing Ms Silvia Ponzoni (who held the position from 15 September 2015 and vacated the role to assume a different one in another Group company).

Mr Gulinatti was appointed following the designation and evaluation process set out in the Corporate Governance Principles of the Company.

12.3 Organisational model pursuant to legislative decree 231/2001

The Internal Control System is completed with the Organisational Model 231, meaning an organisation and management model, intended to prevent offences that can result in liability for the Company pursuant to legislative decree no. 231/2001 (for which they are considered the predicate offences, excluding those deemed not of direct pertinence for the Group).

The Organisational Model has also been adopted by domestic subsidiaries of the Group as well as by Telecom Italia, and consists of:

- the Code of Ethics and Conduct, where the general principles (transparency, fairness, loyalty) that guide the Company in the organization and conduct of business are indicated;
- the "general principles of internal control", aimed at providing a guarantee with regard to the objectives of efficiency and operational effectiveness, reliability of financial and management information, compliance with laws and regulations, safeguarding of assets against possible fraud;
- the "principles of conduct", which consist of specific rules for relations with third parties and for all fulfilments and activities of a corporate nature, and
- the "internal control schemes" that describe business processes at risk of crime, any predicate offences relating to them, the preventive control activities and the behavioural indications aimed at avoiding the related risks.

The internal control schemes have been prepared in accordance with the following basic principles: (i) the separation of roles in undertaking the principal activities involved in business processes; (ii) the traceability of decisions, to allow for identification of specific points of responsibility and the motivations for the decisions themselves; and (iii) the objectification of the decision-making processes, so that decisions are not made on the basis of purely subjective considerations, but based on pre-established criteria.

The Organisational Model is a dynamic instrument, which affects the corporate operation, which in turn must be checked and updated in the light of feedback, as well as the evolution of the regulatory framework. The amendments were drafted by a managerial committee called 231 Steering Committee, briefed by the Supervisory Board (i.e. The Board of Statutory Auditors: see below) and approved by the Board of Directors when of a significant nature.

The Organisational Model also constitutes an integral component of the reference compliance program for the application of anti-corruption legislation such as – in particular – the US Foreign Corrupt Practices Act and the UK Bribery Act. In this context, a foreign version of it has also been defined for adoption by the non-Italian subsidiaries, also taking account of the possible application of similar regulations at local level. In particular, a specific Organisational Model is adopted for TIM Participações, in application of Brazilian anti-corruption law.

The functions of the Supervisory Body are assigned to the Board of Statutory Auditors, which as such oversees the operation and observance of the Organisational Model and reports to the Board on the oversight and examination activities which it has performed and the corresponding outcomes. In this regard the Board of Statutory Auditors is supported by a dedicated corporate structure, within the Compliance Department.

There is a section dedicated to the 231 Organisational Model adopted on the Telecom Italia website (www.telecomitalia.com, About Us section - Governance System/231 Organisational Model channel).

12.4 Independent Auditor

The Shareholders' Meeting on 29 April 2010 appointed PricewaterhouseCoopers S.p.A. to undertake the External Audit of the separate and consolidated financial statements of TIM, and the limited audit of the condensed half-yearly consolidated financial statements of TIM and the full External Audit of TIM's Annual Report on Form 20-F pursuant to the US Securities Laws, for the nine year period 2010 – 2018.

The external auditor appointed for the Parent company TIM S.p.A. is the main external auditor for the entire Telecom Italia Group.

With the external audit of the separate financial statements and consolidated financial statements of TIM for 2018, the nine-year mandate as external auditor conferred on PricewaterhouseCoopers S.p.A. expires.

A new independent auditor, again to act as external auditor for a nine year period, will be appointed in accordance with the new legislative and regulatory rules issued as a consequence of the new EU Directive on the external audit of financial statements, and of the EU Regulation on the external audit of Public-Interest Entities (PIE).

12.5 Manager responsible for preparing the corporate accounting documents and other corporate roles and functions

As per the Bylaws (Art. 13), it is the Board of Directors that nominates the responsible manager, after hearing the

opinion of the Board of Statutory Auditors and – for corporate governance principles – of the Control and Risk Committee. Upon appointment, his/her tasks and powers are defined. These are covered in the specific Regulations, available at the website www.telecomitalia.com, *About Us* Section - *Governance System/Regulations* channel.

The renewal of the Board of Directors entailed, at the meeting of 18 April 2014, proceeding with the renewal of the executive responsible for preparing the corporate accounting documents. The Board confirmed in this role the Head of the Administration Finance and Control Department, Piergiorgio Peluso.

As the person legally responsible for the preparation of suitable administrative and accounting procedures to draw up the annual accounts and consolidated financial statements as well as any other financial communications, the appointed manager is one of the main subjects involved in the operation of the Internal Control System and the management of risks. The Regulations acknowledge his functional responsibility (organizational and for topics) with regard to the internal controls for financial reporting, clarifying that, in this context, he or she is supported by the Executive Directors, as well as by the Management of the Company. The Manager reports to the Board of Directors, the Control and Risk Committee and – for those matters within its competence – the Board of Statutory Auditors.

On the question of internal control and risk management, players other than the “typical” ones are added in Telecom Italia, without entailing any contrast with the principles of the Borsa Code, including, the Head of the Compliance Department (otherwise known as the Group Compliance Officer, currently Giampaolo Leone) and the Head of IT & Security Compliance (Roberto Mazzilli), who report directly to the Board of Directors, and who are responsible for Group oversight activities regarding respectively institutional/regulatory and commercial compliance (Compliance Department) and technological and security process compliance (IT & Security Compliance).

For the appointment of a Head of the Compliance Department, after preliminary consideration of the group of candidates proposed by the management, the Control and Risk Committee and Board of Statutory Auditors, in a joint meeting, expressed themselves in favour of replacing Mr Valerio Cavallo (who has taken on a different role in another Group company) with Mr Giampiero Leone (previously head of Enterprise Risk Management activities), and this was approved by the Board of Directors on 4 November 2016.

12.6 Coordination of subjects involved in the internal control and risk management system

The main subjects involved in the operation of the Internal Control System are:

1. the Board of Directors, which provides direction and periodic (annual) assessment of the system;
2. the Executive Directors (currently the Chairman of the Board of Directors and the Chief Executive Officer), as Directors in charge of establishing and maintaining the system, in accordance with the guidelines defined by the full Board of Directors (see preceding paragraph 12.1);
3. the Control and Risk Committee, with the role of providing investigative support to the Board in relation to its internal control and risk management duties (see preceding Chapter 10);
4. the head of the Audit Department (the person with sole responsibility for third level controls), who reports directly to the Board of Directors and whose mission, briefly, is to test the functioning and adequacy of the system (see preceding paragraph 12.2);
5. the manager responsible for preparing the accounting documents of the Company, appointed by the Board, with the competences provided for by law and rights defined in the specific internal regulations (see preceding paragraph 12.5);
6. the Board of Statutory Auditors which, borrowing the expression used in the Borsa Code, represents the top of the supervisory system. In addition to the competences provided for by law of the Board of Statutory Auditors, it also has the following functions, by internal corporate governance choice: (i) the audit committee functions pursuant to the United States’ laws applicable to Telecom Italia as a private foreign issuer registered with the SEC and listed on the NYSE, and (ii) the functions of supervisory board pursuant to Legislative Decree no. 231/2001.

In addition to these “typical” players, at the date of this Report the following roles are present in Telecom Italia:

- a. the head of the Compliance Department (otherwise known as the Group Compliance Officer) and the head of the IT & Security Compliance Function, who report directly to the Board of Directors, and who are responsible for Group oversight activities regarding both institutional/regulatory and commercial compliance (Compliance Department) and technological and security process compliance (IT & Security Compliance Function);
- b. the non-executive Director who represents the link between the Board of Directors and the control structures that report directly to the Board (currently: Director Calvosa, who also acts as Chairman of the Control and Risk Committee)

The competences of the figures specified in numbers 1-6 correspond to those recommended by the Borsa Code, to which, on this matter, Telecom Italia adheres without exceptions. The establishment of the managerial figures specified in letter a. meets the specific internal control needs of the Group, and as such is set out in the Corporate Governance

Code, which refers to the organisational assessments of the issuer (also with reference to the corresponding hierarchical relations). The “facilitator” Director (letter *b.*) performs the essential guarantee function, in the presence of a Chairman of the Board of Directors with executive functions. This director does not concern him- or her-self with the operational aspects of control, but is called on to facilitate board oversight of the control departments that are hierarchically answerable to the Board of Directors.

The Executive Directors are instead responsible for the bureaucratic aspects of the employment relationship of the managers responsible for the control structures who report directly to the Board. Said managers do not have a single reference point, and it is normal that the administrative aspects mentioned are assigned to legal representatives (who by the will of the board are its representatives to the outside world), avoiding the need to issue an *ad hoc* delegation of powers.

As for the Chairman of the Control and Risk Committee, he exercises a role serving the organisation and operation of the meetings of the Committee: the board is too broad a body to govern the controls, and the fact that many Internal Control System responsibilities cannot be delegated (and/or the choice of the Board not to delegate them) emphasises the prominent role of the Committee, given its focussed and specialised internal articulation.

13. INTERESTS OF DIRECTORS AND TRANSACTIONS WITH RELATED PARTIES

In terms of corporate governance, there is no rule in Telecom Italia governing the removal and/or compulsory abstention of a Director with a non-shareholding interest, but a disclosure regime applies in accordance with the applicable laws. The subject of directors' interests in company activity and the decisions brought to the attention of the Board of Directors is therefore the object of specific attention (with detailed written reports at individual meetings and statements by the Chairman in his opening remarks at individual meetings), as well as checking by the Board of Statutory Auditors.

The corporate procedure for carrying out transactions with related parties, drawn up in accordance with the Related Parties Regulations and adopted in November 2010, was most recently updated in March 2016, and may be consulted on the website www.telecomitalia.com, About Us section - Governance System/Procedures channel

Compared to the preceding versions, the current procedure clarifies the regulations on “intra-group transactions”. These are transactions with subsidiary or affiliated companies that are not within the scope of application of the procedure, always provided that another non-intragroup related party does not have any interests in the intra-group related party, exemplified in terms of a stake in the capital of the intergroup related party that is above the threshold of 5%. It was considered that this rigorous criterion, together with the right to assume/devolve discretionary powers in the examination of the transactions at higher investigatory level, and in any event of authorisation escalation (see below), represents a suitable form of oversight to protect the substantial interests that underlie the rules on transactions with related parties.

In short, the company procedure classifies the transactions into different categories and applies different validation and approval itineraries, when these transactions are to be carried out with related parties. There are two main differences:

- a qualitative distinction, by subject, between ordinary and non-ordinary transactions;
- a quali-quantitative distinction, by significance, between relevant transactions, to which the Regulations on Related Parties is applied, and non-relevant transactions, to which the Regulations on Related Parties is not applied, but that are regulated by governance principles.

According to the definition provided by Consob, ordinary transactions are those included in the ordinary business and related financial activities; in short, (i) all the main activities generating revenues for the Company and (ii) all the other management activities, as long as they are not classified as investment or finance activities.

As regards the nature of transactions with related parties, the Telecom Italia procedure provides that:

- it does not apply to intra-group transactions not qualified as above and those worth less than 100,000 euros;
- ordinary transactions at conditions determined in advance by independent regulators, that cannot be changed, or defined after a tender, without limits on their value, and ordinary transactions at standard or market conditions not determined in advance or defined after a tender, worth up to 5 million euros fall within the competence of the management and do not require prior *ad hoc* approval;
- ordinary transactions at standard or market conditions not determined in advance by independent regulators, that can be changed, or that were not defined after a tender, worth between 5 and 10 million euros, and non-ordinary transactions worth up to 2 million euros require the authorisation of a Management Committee (composed of the Group Compliance Officer, the General Counsel, the Chief Financial Officer and the Telecom Italia at the top of the hierarchy competent to decide on the merit of the transaction);

- all transactions reserved to the Board pursuant to the law, By-laws or Corporate Governance Code are considered relevant, and require a prior opinion from the Control and Risk Committee (or all the independent directors who are members of this Committee, when the transactions are of “greater importance”: see below), as are ordinary transactions at standard or market conditions not determined in advance, nor defined after a tender, worth more than 10 million euros, and non-ordinary transactions worth more than 2 million euros.

The distinction between transactions of major or minor importance is made according to the indexes of importance established by Consob, according to the threshold set by the same Authority of 5% in terms of the ratio between transactions value and the net equity(consolidated)/capitalization of the company; ratio between total assets of the entity involved in the transaction and the total (consolidated) assets of the company; ratio between the total liabilities of the entity acquired and the total (consolidated) assets of the company.

To conclude transactions of greater importance, the procedure always requires the approval of the Board of Directors, subject to the prior opinion of a Committee comprised of all the independent directors in office. For transactions of lesser importance, the decision may be made under standard responsibilities: Board of Directors, Chief Executive Officer or management, depending on the case, which must however have acquired the prior opinion of the Control and Risk Committee. As deemed opportune, moreover

- the Board of Directors may classify as material any transaction performed by Telecom Italia or by its subsidiaries;
- the Control and Risk Committee may classify a transaction submitted for its assessment as being of major material relevance;
- the Management Committee may devolve single transactions for assessment by the Control and Risk Committee.

The opinions concern the Company's interests in the execution of the transaction as well as the substantial correctness and suitability of the conditions. In order to express their opinions, the Committees carry out specific investigations, with which the management must collaborate. If the opinions on the interest and conditions of the transactions are favourable, the transaction is completed, according to the mentioned responsibilities. The possible negative opinion of the Board Committee is considered binding and irrefutable, with the consequence that the transaction cannot be executed.

An IT application is used to support the correct application of the procedure, it allows verification of the correlation and the authorisation process necessary for its completion. The application also ensures initiatives with related parties can be traced.

14. APPOINTMENT OF STATUTORY AUDITORS

In accordance with Art. 17 of the Bylaws, the Board of Statutory Auditors shall consist of five standing auditors, including one Auditor from the less represented gender. The Shareholders' Meeting also appoints four alternate auditors, two of each gender.

Appointments are made based on slates presented by shareholders who, jointly or separately, hold shares representing at least 0.5% of the voting capital, or the lesser percentage required by Consob. The slates are divided into two sections: one for candidates for the office of Standing Auditor and the other for candidates for the office of Alternate Auditor. Sections that contain a number of candidates greater than or equal to three must ensure that both genders are present, in such a way that candidates of the less represented gender are at least one third of the total, rounding any fractions up to the whole number. The first candidate in each section shall be selected from among the external auditors entered in the appropriate register who have worked on external audits for a period of not less than three years. Three standing and two alternate auditors are chosen from the slate that obtains the majority of the votes (so-called Majority Slate), while the remaining standing and alternate auditors are chosen from other slates (so-called Minority Slates) proportionally (the quotients method), in accordance with the requirements set out in the applicable regulations. If more than one candidate obtains the same quotient, the candidate from the slate that has not yet elected a statutory auditor is elected or, subordinately, there is a tiebreaker vote by the Shareholders' Meeting.

If the composition of the resulting board or category of alternate auditors does not reflect the gender balance, taking into account their ranking order in the respective sections, the necessary number of the last candidates of the more represented gender elected from the Majority Slate shall forfeit their position to ensure compliance with this requirement, and shall be replaced by the first unelected candidates of the less represented gender on the same slate and the same section. In the absence of candidates of the less represented gender in the relevant section of the Majority Slate in sufficient number to proceed with the replacement, the Shareholders' Meeting shall appoint the standing or alternate auditors that are missing with the majorities required by law, ensuring that the requirement is met.

In the event that a statutory auditor chosen from the Majority Slate or one of the Minority Slates should cease to serve, the alternate auditors from the Majority Slate or the Minority Slates shall take his/her place. Appointments to fill

vacancies on the Board of Statutory Auditors pursuant to Article 2401 of the Italian Civil Code shall be approved by the Shareholders' Meeting with the affirmative vote of the absolute majority of those voting and in compliance with the principle of the necessary representation of the minority shareholders, and of the requirements of the Bylaws regarding gender balance. In the event that a standing auditor chosen from the Minority Slates should cease to serve, the principle of necessary representation of the minorities shall be deemed to have been respected if one of the alternate auditors chosen from the Minority Slates takes his/her place.

15. COMPOSITION AND OPERATION OF THE BOARD OF STATUTORY AUDITORS

The Shareholders' Meeting of 20 May 2015 appointed the serving Board of Statutory Auditors, whose term will expire with the Shareholders' Meeting to approve the financial statements for financial year 2017.

Two slates were presented within the terms and according to the procedure required by the applicable regulations, by the relative majority shareholder at that time, Telco S.p.A., and by a group of Asset Management Companies (SGRs) and international institutional investors (specifically: Aletti Gestielle S.G.R. S.p.A., Anima S.G.R. S.p.A., APG Asset Management N.V., Arca S.G.R. S.p.A., Eurizon Capital S.G.R. S.p.A., Eurizon Capital S.A., Fil Investments International, Fideuram Investimenti S.G.R. S.p.A., Fideuram Asset Management (Ireland), Interfund Sicav, Legal & General Investment Management Limited - Legal & General Assurance (Pensions Management) Limited, Mediolanum Gestione Fondi S.G.R. S.p.A., Mediolanum International Funds - Challenge Funds - Challenge Italian Equity; Pioneer Investment Management S.G.R.P.A., Pioneer Asset Management S.A., Standard Life Investments Limited). From the Telco slate, which obtained more votes (78.75% of the voting capital), three Standing Auditors and two Alternate Auditors were appointed: Gianluca Ponzellini (Standing Auditor), Ugo Rock (Standing Auditor), Paola Maiorana (Standing Auditor), Francesco Di Carlo (Alternate Auditor) and Gabriella Chersicla (Alternate Auditor). The remaining appointees were chosen from the Asset Management Companies slate (which obtained 18.52% of the votes) : Roberto Capone (Standing Auditor), Vincenzo Cariello (Standing Auditor), Piera Vitali (Alternate Auditor) and Riccardo Schioppo (Alternate Auditor).

The Shareholders' Meeting also appointed Roberto Capone as Chairman of the Board of Statutory Auditors. The annual remuneration was established, as proposed by shareholder Telco, as 95,000 euros for each Standing Auditor and 135,000 euros for the Chairman of the Board of Statutory Auditors.

The *curricula vitae* of the members of the control body are available on the website www.telecomitalia.com About Us Section - *Corporate Bodies/Board of Statutory Auditors* channel.

The verification by the Board of Statutory Auditors of the independence requirements specified in article 148, subsection 3 of the CLF and those pursuant to the Borsa Italiana Corporate Governance Code was carried out in the meeting on 15 February 2017.

The Statutory Auditors attended meetings with the management (including that of the subsidiaries), to provide the members of the Board of Directors with adequate knowledge of the business sector in which the Company operates, the corporate safeguards and dynamics and their evolution.

For those Statutory Auditors who requested it, the Company organised personalised inductions.

The practice is for the Auditors to report any interests in the topics to be discussed.

The Board of Statutory Auditors performs the activities assigned to it by Italian regulations, as well as the duties of the audit Committee pursuant to the United States' regulations, applicable to the Company by virtue of its status as a foreign issuer listed on the New York Stock Exchange. The Board of Statutory Auditors is also assigned the functions of supervisory body pursuant to legislative decree no. 231/2001.

It has access to the necessary information and corporate functions (first and foremost the control functions) for performing its tasks. The control body was not assigned financial resources of a predetermined amount, but the Board of Statutory Auditors was able autonomously to bring in external consultants of its choice.

During 2016, fifty meetings were held (nine of which jointly with the Control and Risk Committee, which all the Statutory Auditors always have the possibility to attend). The average duration of the meetings was 2 hours and 43 minutes. The average percentage of attendance was around 90 %.

Table 3 presents information on the composition of the Board of Statutory Auditors.

For detailed information on the activities performed by the Board of Statutory Auditors refer to the report to the Shareholders' Meeting prepared pursuant to article 153 of the CLF.

16. SHAREHOLDER RELATIONS

Within the Administration Finance and Control Function, Alex Pierre Bolis is the executive appointed to manage relations with the financial community and with all the shareholders (Investor Relations Manager). The contact information is:

- Institutional investors:
Telecom Italia S.p.A. - ref. *Investor Relations*
Via Gaetano Negri, 1
20123 Milan
Telephone: +39 02 85954131
E-mail: investor_relations@telecomitalia.it
- Individual investors:
Telecom Italia S.p.A. - ref. *Investor Relations*
Via Gaetano Negri, 1
20123 Milan
Telephone: +39 02 85954131
E-mail: investitori.individuali@telecomitalia.it

Important information for shareholders and, in general, for current or potential investors (also with bonds) is available at www.telecomitalia.com in the *Investors* section.

17. SHAREHOLDERS' MEETINGS

Pursuant to law, the shareholders entitled to attend the Meeting and to vote are those for whom the reference intermediary sent the Company specific communication certifying such right at the record date (seventh working day prior to the meeting first call).

Furthermore, in Telecom Italia, the ordinary shareholders may also exercise their voting rights by post, and the Board of Directors has the power to permit electronic voting, specifying the arrangements for this in the call notice. For this purpose, it is practice to activate a special platform that can be accessed through the Company website. In order to facilitate the collection of proxies among employee ordinary shareholders of the Company and its subsidiaries who belong to shareholder associations satisfying the requirements established by law, special areas and instruments are made available for communication and performance of the activity. More generally, the Board of Directors shall use its best endeavours to ensure that Shareholders have adequate information about the elements necessary for taking decisions within the competence of the Shareholders' meeting, with full knowledge of the facts.

The Shareholders' Meeting resolves on legal matters, but the Bylaws provide that decisions on mergers into Telecom Italia or demergers in favour of Telecom Italia of companies of which Telecom Italia owns at least 90% of the share capital, the reduction of the share capital in the event of the withdrawal of shareholders, the revision of the Bylaws to conform with statutory provisions, the relocation of the Company's registered office within Italy, and the opening and closing of secondary offices are matters that are remitted to the competence of the Board of Directors.

To ensure the regular conduct of shareholders' meetings, since 2000 the Company has adopted the Regulations for the Shareholders' Meetings, available at the website www.telecomitalia.com, *About Us* section, *Governance System/Regulations* channel.

14 directors attended the Shareholders' Meeting of 25 May 2016 out of a total of 16 Directors in office. When calling the Shareholders' Meeting, the Board of Directors did not consider it opportune to appoint the designated representative of the Company to issue proxies to participate in the Shareholders' Meeting, and instead allowed the shareholders to vote electronically.

During the financial year, the single largest shareholder remained Vivendi S.A., whose percentage of the voting capital is set out in table 1 ("Information on Share Ownership -- Major holdings in share capital").

18. FURTHER CORPORATE GOVERNANCE PRACTICES

In its meeting on 23 March 2017 the Board of Directors approved the abrogation of the "Brazil Transactions Procedure", since it deemed that the reasons for its adoption no longer existed.

Moreover, on 23 March 2017, Board of Directors examined the arguments considered by the Board of Statutory Auditors, which evaluated the relationship that currently exists between reference shareholder Vivendi S.A. and TIM. In

this regard, the Board of Statutory Auditors has concluded that this relationship could not be qualified as “control” pursuant to the definitions contained in the Italian Civil Code and the Consolidated Law on Finance (CLF); however, the majority of its members did believe, differently to the conclusions drawn by the independent opinion requested of the same body, that it could be considered “control” and not “notable influence” for the purposes and within the limits of the Consob regulation on transactions with related parties. Based on additional independent legal opinions, the Board of Directors resolved that it did not agree with the assessment made by the Board of Statutory Auditors that the premises exist for the situation to be considered one of “de facto control” of TIM by shareholder Vivendi, and this also applies in the sense and for the purposes of the regulation on transactions with related parties alone.

The information notice disseminated by the Company on this matter, as required by Consob, is reproduced below.

INFORMATION REQUIRED BY CONSOB PURSUANT TO ART. 114 CLF

The request

Reference is made to the issue of the qualification of the relationship that exists between reference shareholder Vivendi S.A. and TIM, and to the analysis carried out by the Company’s control and administration bodies.

On this point, having been informed of the conclusions reached by the Board of Statutory Auditors, and the further investigations being undertaken by the Board of Directors, Consob, with its request Ref. 0035756/17 of 21 March 2017, before the Board Meeting of 23 March, asked that the following material be disclosed to the public within three days of the board resolution on the issue:

- a summary of the arguments considered by the Board of Statutory Auditors, with reference to the need to qualify Vivendi as the controlling shareholder for the purposes of the regulations on transactions with related parties;
- the related arguments considered by the Board of Directors.

The Board of Statutory Auditors’ considerations

After having been informed of the outcome of the assessment made by the control body, the Board asked for the external opinions and investigatory findings that supported their conclusions, and received:

- the minutes of the meeting during which the Board of Statutory Auditors decided (by majority vote) that there was control;
- two notes by a Statutory Auditor of which one (the longest) was in actual fact only prepared after said decision.

The Board of Statutory Auditors also deemed it advisable to obtain the support of an independent consultant of its choice, identified in Studio Galbiati, Sacchi e Associati; however, the consultant was of the opinion that any circumstance of control was to be excluded.

Distancing itself from the aforementioned opinion, after having expressly excluded control pursuant to art. 2359 of the Italian Civil Code and art. 93 of the CLF (the Consolidated Law on Finance: legislative decree no. 58/1998), the analysis of the Board of Directors regarded Consob Resolution 17221 of 12 March 2010 and, in particular, Annex 1, § 2, letter d), as the Board interpreted it in light of the combined provisions of IAS 24 and IFRS 10. The Board of Statutory Auditors decided it could discern, from the texts of these regulations, a notion of control that would also embrace the “power to direct/influence/condition, on a stable basis, the exercise of the voting rights of the majority of the directors” regarding “significant resolutions”, and therefore retraced events, activities and resolutions of the Board of Directors of Telecom from 2015 onwards to verify the concrete recurrence of such a notion of control.

After its review, the Board of Statutory Auditors observed that, with some minor exceptions, in the various circumstances the Board of Directors had “always resolved in favour of the position proposed, or openly and forcefully supported by the directors from Vivendi”, and decided that such a convergence of opinions on the positions expressed by the Directors appointed by Vivendi had to be considered enough to be able to ascertain that control of TIM by Vivendi did exist for the purposes of the regulation on transactions with related parties.

The Board of Directors’ considerations

In view of the investigations undertaken by the Board of Statutory Auditors, the Company appointed as advisors the legal firms Marchetti and Portale Purpura, which provided two separate independent legal opinions, subsequently supplemented in light of the additional material subsequently made available by the Board of Statutory Auditors.

The consultants appointed by the Company (who in fact agreed with the approach sustained also by the independent consultant appointed, independently, by the Board of Statutory Auditors) observed that the notion of control and its possible declinations, are identified and reconstructable based on the reference regulations, and that the interpretation developed by the Board of Statutory Auditors is not to be found in either the regulation on transactions with related parties or in the IFRS international accounting standards referenced, which postulate that control is “the power to determine the financial and operating policies of an entity in order to obtain benefits from its activities”. Said power – which differs from mere “notable influence”, which it is uncontested that Vivendi has over TIM – must necessarily derive from the possession of rights, and must be capable of being exercised unilaterally by the shareholder, unilaterally, without the necessary concurrence of others.

This circumstance does not occur in the case of the Board of Directors of TIM.

The opinions also specify that the simple observation of a convergence of votes is irrelevant for the notion of control, as

is any possible effective capacity of individual members of the administrative body to express positions that, on each occasion, receive the free consent of others. All the opinions received make the point that the positions expressed by individual Directors cannot be considered to be the mere effect of the exercise of other people's powers of direction and control, even more so in the context of a Board of Directors, most of whose members were appointed before the entry of Vivendi into the share capital and the vast majority of whom are in any event independent Directors.

The above in disregard of considerations of the merit regarding the de facto basis of the internal dynamics of the Board of Directors, assumed with reference to the Board of Statutory Auditors, whose reconstruction, as carried out by the aforementioned body, the Board of Directors did not agree with.

The considerations summarised above have been shared with the members of the Board of Directors in specific informal meetings, during which the Company's consultants provided clarifications and responses to queries, to enable the Directors to act in a fully informed manner.

The Board of Directors' conclusions

After an initial postponement to allow everyone to review the extensive documentation available, the Board of Directors considered on 23 March that it had elements enough to be able to make its own conclusive determination on the issue, and did so, focussing on the "factual reconstruction" developed by the Board of Statutory Auditors.

In particular, all the directors (including the independent director appointed by Vivendi, and in the absence of Baroness Kingsmill) excluded any kind of "subjection" with regard to the positions expressed by the non-independent directors nominated by Vivendi, confirming that they had taken their decisions with full and unfettered independence of judgement, without limitations of any kind other than the objective interest of the company and all its stakeholders, on which every choice made by the Board is based. As a result, all the members of the Board of Directors were of the view that it should not proceed to reclassify the relationship between Vivendi and TIM from one of "notable influence" (which is unquestionably acknowledged) to one of "control", in line with the conclusions reached in all the independent legal opinions produced (including that issued by the independent professional appointed by the Board of Statutory Auditors).

For completeness, it should be noted that Ms. Calvosa and Ms. Cornelli, although they agreed with the aforementioned conclusion reached by the Board of Directors, did not feel that they could participate in the voting as they were bringing a proposal to strengthen, on a strictly voluntary basis, the safeguards on transactions in which Vivendi was involved. On this point the Chairman of the Board of Directors referred to the numerous safeguards on transactions with related parties (and in any case Vivendi is classified as such), not least the ordinary recourse made to selective tender procedures that could ensure competition between the counterparties and transparency in the choice of the best offer, which all principal suppliers must participate in, and evidence the need to structure the proposal operationally, so as to be able to bring it to the Board for review, assigning the appropriate further investigation of the issue to the Control and Risk Committee.

The Vice Chairman and Directors Philippe and Roussel, who declared that they had an interest in the subject, and made a declaration to this effect pursuant to art. 2391 of the Italian Civil Code, abstained from voting.

19. CHANGES SINCE THE END OF THE REFERENCE YEAR

In 2017 the Board of Directors abrogated the "Brazil Transactions Procedure" (cf. paragraph 18).

TABLE 1 – INFORMATION ON SHARE OWNERSHIP**Share capital structure up to 31 December 2016**

	No. shares	% of share capital	Listed (indicate markets) / unlisted	Rights and obligations
Ordinary shares	15,203,122,583	71.61%	Listed on Borsa Italiana S.p.A.	Voting rights at the Company Ordinary and Extraordinary Meetings
Savings shares	6,027,791,699	28.39%	Listed on Borsa Italiana S.p.A.	Right to vote in special shareholders' meetings; capital privileges contemplated in Article 6 of the By-laws: preference dividend 5%, biennial carrying over of the right to a preference dividend, dividend 2% higher than the dividend on ordinary shares.

Other financial instruments**(attributing the right to subscribe newly issued shares)**

	Listed (indicate markets)/non listed	Number of instruments in circulation	Category of shares available for conversion/subsorption	Number of shares available for conversion/subsorption
Convertible Bonds ⁽¹⁾	Vienna Stock Exchange	20,000	Telecom Italia ordinary shares	(2)

(1) Bonds entitled "€2,000,000,000 1.125 per cent. Equity-Linked Bonds due 2022" issued by Telecom Italia S.p.A.

(2) Exclusively to service the bond issued by Telecom Italia S.p.A., the Company resolved to increase the share capital for payment, for a total maximum amount, including any share premium, of 2 billion euros. The maximum number of conversion shares that may be issued shall be determined by the issue price of the shares. Each instrument in circulation is worth 100,000 euros.

During 2016, the Company increased the share capital by 937 million euros after the full conversion of the "€1,300,000,000 6.125 per cent. Guaranteed Subordinated Mandatory Convertible Bonds due 2016" (the "bonds") into new Telecom Italia ordinary shares (the "New Shares") issued by Telecom Italia Finance S.A. and guaranteed by Telecom Italia S.p.A. . The issue of a total of 1,703,210,812 New Shares occurred as follows:

- 360,100 New Shares issued on 22 September 2016, for the voluntary conversion of 3 bonds
- 1,702,850,712 New Shares issued on 15 November 2016 the date the bonds became due, after the mandatory conversion of the 12,997 bonds still in circulation.

Directors who resigned during financial year 2016																			
CEO	Marco Patuano	1964	12/04/2011	16/04/2014	22/03/2016	TS	X					4/4							
Number of meetings held during the reference year:												BOD: 14	CRC: 16	NRC: 12	SC: 1				
Quorum required to submit slates by the minorities for the election of one or more members (for the purposes of art. 147-ter of the CLF): 0.5%																			

NOTES:

* In this column (i) for those Directors appointed/confirmed by the Shareholders' Meeting of 16 April 2014, LSGR means that they were appointed with slate voting and were candidates on the SGR and Institutional Investors' Slate, LT means that they were appointed with slate voting and were candidates on the Telco Slate, T means they were originally candidates on the Telco Slate but were appointed by the Shareholders' Meeting by ordinary voting (see Paragraph 5.2), V means that they were candidates proposed by shareholder Vivendi SA during the Shareholders' Meeting of 15 December 2015.

** This column shows the attendance of the directors respectively at the Board of Directors and Committee meetings (the number of meetings the Director attended is indicated with respect to the total number of meetings he/she could have attended, no. of attendances/no. of meetings held during the actual period of office of the person concerned).

*** This column indicates the number of offices as director or statutory auditor held by the person concerned in other companies listed in regulated markets, including foreign markets, in finance, banking, insurance or other sizeable companies. The offices are detailed below. For further information on offices held, see the curricula vitae available on the website www.telecomitalia.com, About Us section, Corporate Bodies/Board of Directors channel.

**** This column shows the status of the Director within the Committee "P" chairman, "M" member.

- (1) Member of the Strategy Committee from July 2016
- (2) Director in charge of the internal control and risk management system
- (3) Person responsible for managing the Issuer
- (4) Member of the Nomination and Remuneration Committee from 15 February 2016, Vice Chairman from 27 April 2016 and Chair of the Strategy Committee from 30 September 2016
- (5) Lead Independent Director (LID) from 26 July 2016
- (6) Member of the Nomination and Remuneration Committee until 15 February 2016
- (7) Member of the Nomination and Remuneration Committee from 15 February 2016
- (8) Member of the Nomination and Remuneration Committee until 15 June 2016
- (9) Member of the Nomination and Remuneration Committee from 15 February 2016
- (10) Member of the Nomination and Remuneration Committee from 30 June 2016 and Lead Independent Director (LID) until 26 July 2016
